DEMOCRATIC MANAGEMENT. Another Bond Issue Looming Up as

Another Bond Issue Looming Up as a Necessity.

(REGULAR ASSOCIATED PRESS REPORT.)

WASHINGTON, Dec. 9.—The statement is made among those best qualified to judge that in the absence of legislation to relieve the financial situation another bond issue is altogether probable within the next few months at the farthest. The present condition of the exchange market and the commercial situation generally, it is said, point unmistakably to further large withdrawals of gold, and unless something is done to prevent the usual heavy exports during January and February, which for the last two years have forced the issue of bonds to recoup the depleted gold reserve, a similar situation will confront the treasury before the new year is far advanced.

The available cash balance in the

ury before the new year is far advanced.

The available cash balance in the treasury today, including the reserve, is approximated at \$175,50,000, and, as the government has realized from its three bond issues about \$182,000,000, it appears that but for these issues the government would now be without one dollar in the treasury, and, in addition, would have outstanding obligations amounting to about \$6,500,000. The excess of expenditures over receipts amounting to about \$130,000,000. The ex-cess of expenditures over receipts amounts to about \$130,000,000. The ex-ports of gold during the last four months have been \$55,796,000; so far this calendar year the amount is \$95,-

000,000.

In 1894 the exports amounted to \$101,\$19,921. From the best information obtainable it is believed that the present
month will show a surplus of at least
\$1,000,000, which will leave the deficit
for the fiscal year to January 1 about
\$15,000,000. It is expected that this
amount will not be materially increased
during the remaining months of the
fiscal year.

San Francisco Eager to Shine as a Double-distilled Money Power.

Pittsburgh Favored by the Strongest Political Influence, but This May Be Offset by Coin. Yesterday's Meeting.

WASHINGTON (D. C.,) Dec, 9.—
(Special Dispatch.) A week ago the influence of Senator Quay and ex-Senator Platt were believed to be all powerful toward locating the National Republican Convention, and Pittsburgh was regarded as the winner by those on the inside. Although the strength of San Francisco was admitted, it was booked that the latter should have the leading vote on first ballot, but Pittsburgh should be chosen. But political combinations are losing weight as compared with financial considerations. The Republican National Committee The Republican National Committee owes \$54,000, and the city securing the convention is expected to pay that and to furnish a fund for future expenses.

At a preliminary meeting today, Chi-cago offered a sum said to be \$250,000. M. H. De Young said that if money was the power, San Francisco would exceed any other city, no matter what exceed any other city, no matter what the sum. Quay is working hard and using his influence for Pittsburgh, but says if it is imposible for that city to obtain the convention he will favor San Francisco. Platt will go with Quay for Pittsburgh, but notified the California delegation that he opposed San Francisco and will work for Chicago for second choice. New York is not in the fight. There are 52 votes in the committee, 27 necessary for choice, and financial considerations will govern enough members to carry for any one city.

For San Francisco tomorrow Gen For San Francisco temorrow Gen. Chipman will open and George A. Knight will follow. The California delegation is working hard. The Pittsburgh contingent, headed by Chris Marge and including the managers of the telegraph companies and the railroads and leading Pennsylvanians, is confident. Pittsburgh will be introduced by Congressman Dalzell, followed by Chris Magee, Percy F. Smith, J. K. Patton, John Campbell and J. D. Flynn. The John Campbell and J. D. Flynn. Salt Lake was withdrawn today in favor of San Francisco. Pittsburgh is favored by the strongest political element, Quay, Platt and Magee, but the financial question may make the fight between Chicago and San Francisco, with the outcome depending largely upon the question of cash. Never, a night before the act, has a result been so doubtful, although Pittsburgh still seems to have the best chance of winning.

WASHINGTON, Dec. 9.—The National Republican Committee will meet to-morrow at the Arlington Hotel to semorrow at the Arlington Hotel to select the time and place for holding the national convention next year. As to the time the committee seems to be pretty well agreed that it should be held some time in June, although there are some advocates of a very late convention, and a short, sharp campaign. The place at which the convention will be held is the subject of a hard, but good-natured struggle. Each rival city is being boomed with great diligence. Each offers to pay off the debts of the National Committee and, besides, offers a separate and superior set of qualifications and advantages, sentimental, material and geographical. The question of candidates does not appear to enter into the question of the choice of the convention city, and the Republican politicians who swarm about the corridors say the committee will content itself with selecting the place for the dors say the committee will content it self with selecting the place for the

dors say the committee will content itself with selecting the place for the convention and allow the convention to select the candidate. Among those present are some of the most distinguished and powerful leaders of the Republican party.

An attempt was made to give the cities a hearing today, but many of the committeemen were absent, and it was decided finally to postpone the hearings until tomorrow morning at 10 o'clock, when each candidate will be given an hour to present her claims.

The question of the basis of represensation, which will come before the committee, will be referred, probably, to the convention for settlement. The leaders, as a rule, claim it would be folly to discourage the Southern Republicans by reducing their basis of representation just as they are beginning to fulfill their predictions that the Solid South would tear away from her old allegiance and the Democratic party.

An effort was made to secure a meeting of the Executive Committee tonight, but a quorum was not secured. Most of the national committeemen have arrived, and the corridor of the Arlington Hotel is the storm center of a surging crowd of convention "boomers" and others. The parlors of the hotel are being used as the beadquarters of various cities. Pittsburgh has the point of vantage in the first parlor of the main corridor. The claims of Pittsburgh will be presented by Republican Representatives Dalzell, William A. Stone and C. L. Magee.

In the adjoining parlor St. Louis has its headquarters, with leading men its headquarters, with leading men in the storm center of the St. Louis head telegrations should St. Louis be decided upon as the place to hold the next Republican National Convention.

similarly busy in advancing the interests of the city. San Francisco has headquarters on the third floor, but the delegation is doing its work in the lobbies among the committeemen, rather than in the headquarters. The Chicago delegation was also active downstairs, without headquarters.

The headquarters of the Ohio delegation, which is looking after the interests of Gov. McKinley, are constantly crowded. The delegation has a permanent organization with Representative Grosvenor as chairman, and Representative Grosvenor as chairman, and Representative Northway as vice-chairman. The chairman said that as Reed and Allison are in Washington, it was proper that Gov. McKinley should be likewise represented through his friends. New York was not represented by a delegation up to noon, although Thomas C. Platt and Representative Quigg were on the ground. It was stated that a special train bearing the New York delegation was on the way.

The National Committee passed a resolution appointing a committee to send congratulations to Gov. Bradley of Kentucky on his election. The committee is composed of Hahn of Ohio, Manley of Maine and Clarkson of Iowa.

De Young of California introduced a resolution, which was adopted, providing that the representatives of the press should be admitted to the meetings of the committee when the claims of the various cities should be presented. Each city is to have an hour tomorrow for the presentation of its claim, beginning immediately after the opening of the session tomorrow. The committee the adjourned, having been in session ten minutes, to 10 o'clock tomorrow.

This evening the corridors of the This evening the corridors of the Arlington were again thronged. At the
headquarters of the four rival cities
the champions of each were dispensing
hospitality and putting forth their most
earnest arguments in behalf of their
respective cities. The Pittsburgh contingent dwelt upon its location as a

Golden Gate partisans were offering every inducement that might be demanded.

Some days ago M H. de Young announced that San Francisco had obtained a \$50 railroad rate from Chicago to the Coast and return. Tonight the delegations decided to offer a \$50 rate to the public, a \$25 rate to the delegates and free transportation and hospitality to the members of the committee. Gen. N. P. Chipman and De Young will present San Francisco's claims.

The Chicago delegation was, perhaps, the most serene of any. St. Louis displayed seemingly more activity than any of the other cities. Both Kerens and Filley said the contest would settle down to Chicago and St. Louis, and that the Mound City would carry of the prize. Each of the candidates was prepared to offer the Republican committee enough and more than enough to pay off the old debt of the committee. This debt is variously placed at from \$22,000 to \$54,000.

Pittsburgh has a fund of \$75,000 subscribed, St. Louis and Chicago have \$55,000 each, and San Francisco is said to have \$200,000 and more if money will avail. Each city declares that it will pay sanything in reason to secure the convention. Although each candidate claims victory on the final ballot, a careful canvass tonight showed that they approximately agreed in the result of the first ballot. This canvass gives San Francisco and St. Louis and Chicago and Pittsburgh were abroad, but were strenuously denied. The shrewdest politicians about the hotel tonight predict that unless San Francisco and that the contest would lie between the Lake and the Mound cities.

"Chicago may get the convention. It would be pleasant to say that she will get it, but the situation does not justify sanguine predictions. At this writing St. Louis seemingly has the best chance of carrying off the prize. The fight, so far as can be judged, has developed into anything to beat Chicago, and there are indications of a combination between San Francisco and St. Louis and Pittsburgh to that end. San Francisco's strength is of the complimentary kind, and Pittsburgh is deficient in accommodations. St. Louis makes a good showing from the money point of view, and in the matter of provision for convention crowds. Furthermore, she is the second choice of amatority of those who favor San Francisco. cisco and Pittsburgh in the prelimin-

"Last, and most important of all, the

majority of those who favor San Francisco and Pittsburgh in the preliminaries.

"Last, and most important of all, the Reed influence is secretly against Chicago. The Reed feeling is that Chicago is a hostile territory and that any other place would be preferable. Pittsburgh would be satisfactory, but for the discovery that the town is saturated with McKinley sentiment. Simultaneously with that discovery came the disclosure of lack of hotel accommodations. That may said to be the "knock-out drop." San Francisco being geographically impracticable, Chicago supposedly hostile and Pittsburgh dangerous, St. Louis will be picked out as the most neutral point in sight, and the Reedplay is being made for that city."

The St. Louis delegation held a meeting during the forenoon and authorized Samuel Kennard, head of the Business Men's Association of St. Louis, to announce authoritatively that the colored delegates to the national convention would receive exactly the same accommodations, facilities and treatment at hotels and public places as the white delegates; also to make a guarantee that hotel proprietors would not advance rates during the convention.

Some of the contesting cities evidently are not in favor of the movement to hear their claims today instead of tomorrow, and public evidence of their protest was made when Col. Swords, sergeant-at-arms of the Naticnal Committee, said at noon that it was possible the programme might be changed again, and the hearing of the cities' claims be deferred until tomorrow, as the New York delegation had been delayed and there was a feeling that the hearing would be premature. The large banquet-hall where the hearings are to take place has been elaborately decorated for the occasion. At 2 o'clock only a few committeemen had reached the hall, and it was some time after that that the delegates assembled behind closed doors. At 2:30 o'clock, city twenty members of the cities would be postponed until temorrow.

(REGULAR ASSOCIATED PRESS REPORT.) WASHINGTON, Dec. 9.—The feature of the Senate session today was a speech by Senator Morgan of Alabama, chairman of the Committee on Foreign Relations and a member of the Paris Relations and a member of the Paris Bering Sea Tribunal, upon a resolution offered by him last week, instructing the Foreign Relations Committee to investigate the question of the liability of the United States for the seizures of British ships in Bering Sea in 1890. Senator Morgan took the position in the last Congress that the settlement of these claims by the payment of a lump sum of \$425,000, as recommended by the President, was not wise nor by the President, was not wise nor proper. His remarks on that occasion were the subject of some sarcastic comment from the British Ambassador here in the latter's official correspondence with Lord Kimberly. That correspondence with Lord Kimberly. pondence was printed recently from British bluebook and most of Mr. the British bluebook and most of Mr. Morgan's speech today was devoted to paying his respects to Sir Julian

His resolution, which was as follows, was unanimously adopted at the conclusion of his speech:

"Resolved, that the message of the President received by the Senate on February 13, 1895, and his message received in the Senate today (meaning December 3) relating to the payment by the United States of the claims of Great Britain arising out of the Bering Sea-controversy, be referred to the Committee on Foreign Relations with instructions that said committee examine into the question of such liability to Great Britain and the amount thereof, if any, and of any liability on the part of Great Britain or Canada arising out of said confroversy and that said committee shall have power to report by bill or otherwise."

The House held another short session today, and devoted most of its time to discussing the appointment of House officers. Resolutions were presented by the Republicans calling for the correspondence in the Waller case, for lists of the pensioners who have been stricken from the rolls since March 4, 1893, or reduced, and for Secretary Smith's reasons for an order affecting the action of the Land Office in connection with the perfecting of titles to the Pacific Railroad grant lands in Utah and Nebraska, but all were objected to by the Democrats. An effort to have printed in the record the memorial of the National Wool-growers' Association for higher rates met the same fate.

FIFTY-FOURTH CONGRESS.

FIFTY-FOURTH CONGRESS. REGULAR SESSION.

WASHINGTON, Dec. 9.—SENATE.— The chief interest in the Senate proceedings today centered in the speech of Senator Morgan of Alabama, chair-man of the Committee on Foreign Af-fairs, on the Bering Sea awards. Senator Morgan said he felt it in-

tain published comments made upon his course in the Senate by the British Premier and the British Ambassador. He declared that the Paris tribunal did He declared that the Paris tribunal did not attempt to determine the question of the liability of the United States for seizures, or the amount of such liability. Great Britain contended, however, that the liability was decided as a necessary inference, and President Cleveland, proceeding on that assumption, had, through the State Department, agreed to pay \$425,000 in discharge of this alleged liability of the United States, but that agreement could not

this alleged liability of the United States, but that agreement could not be carried out without the ratification of Congress.

The findings of the tribunal rested entirely upon the treaty-making power of the two governments, and the United States and Great Britain were bound to carry out the regulations decided on for the protection of the seals as much as if the regulations had been incorporated in a treaty. But neither government was bound further. At most, the award of the arbitrators would only furnish a remote argument for the claim of Great Britain for damages for seizures.

for the claim of Great Britain for damages for seizures.

He would be loyal to the findings of the tribunal, he said, but Great Britain conveniently sought to overstate them. Through negotiations the State Department agreed to pay 425,000 for damages and President Cleveland recommended that sum be appropriated. Congress refused to make the appropriation. At this point Senator Morgan turned his attention to Sir Julian Pauncefote, the British Ambassador, and his "doleful plaints" to Lord Kimberly. Senator Morgan was scornful

Pauncefote, the British Ambassador, and his "doleful plaints" to Lord Kimberly. Senator Morgan was scornful and sarcastic.

"Does he not know," the Senator asked, "that no executory agreement is binding until ratified by Congress?"

He quoted from Sir Julian's report to Lord Kimberly that Republicans and Populists and forty-four Democrats had voted against the appropriation and his comment, attributing the action of the House to the necessity of party expediency. Mr. Morgan declared contemptuously that it was going to be the fashion abroad to attribute everything that did not please them to the "influence of party politics." He characterized Sir Julian's comments as "unjust" and "offensive" in the case of the House.

"But, not content with these reflections on the House," said Mr. Morgan, "he refers to Senators by name in a gratuitous and insulting manner. He does this under the cover of the British flag."

After quoting Sir Julian's comment on his (Senator Morgan's) characteriation of some of the alleged British claimants as "recalcitrant and rascally Americans," he declared that the British ambassador's strictures were

based on the mistaken notion that the British navigation laws should cover violations of United States etatutes. Crimes against the decalogue could not, he said, be found in the Koran. He denounced the action of the American marauders in Bering Ses, who had placed themselves under the protection of the British flag, as guilty of surreptitious piracy. He did not hister to the British ampassador crit

had placed themselves under the protection of the British flag as guilty of surreptitious piracy. He did not object to the British ambassador criticising his course, either as Senator or as a member of the Paris Tribunal, in his private communications to his government, but he emphatically protested that he had no right to give his criticism to the American papers, and thus forestall reply.

Mr. Morgan was exceedingly ironical in his reference to the indiscriminate nature of the claims England had bundled together, and asked us to settle for a "lump" sum. The proposition to pay a "lump" sum, he said, ought to be too revolting to lie on the Christian stomach of the English ambassador.

Christian stomach of the English ambassador.

The correspondence laid before the House, Mr. Morgan said, demonstrated that there were no negotiations over the alleged claims, and evidently little investigation. England has simply jumped at the "lump-sum" proposition made by Secretary Gresham for the settlement of the claims, that had neither justice nor morality beyond the assertion set up, but palpably false, that the award of the Paris Tribunal made it obligatory upon the United States to satisfy any claims for damages which Great Britain might make.

Mr. Morgan insisted that it was the clear duty of the Senate to obstruct the action of the President in an autempt to ride down the power of the Senate in negotiating for the settlement of an international controversy without its advice or consent.

Mr. Morgan went at considerable length into what he termed "the infamous conspiracy" which proceeded under the protection of the British flag for the violations of the laws of the United States, and claimed that a thorough investigation and adjudication of the claims would result in large

the United States, and claimed that a thorough investigation and adjudica-tion of the claims would result in large allowances of damages to the leasees of the seal islands and consequently an increased revenue to the United States. of the seal islands and consequently an increased revenue to the United States.

In concluding, Senator Morgan again returned to his assault upon the British ambassador for his rough criticism of himself, of which he said he was perhaps "unbecomingly careless."

"But I do feel resentful," he said, "that, instead of furnishing his complaints to the President, he gave them out to the American press at the opening of Congress, with a view to dispelling the misapprehension in the public mind. It seems, however, that, after Sir Julian had buried me under his ponderous logic last March, Lord Kimberly thought it necessary to exhume my remains in order to give the American people a much-needed tonio of Great Britian's sense of honor to brace it up sufficiently to induce Congress to vote the 'lump sum,' by which England seems to put a technical estoppel on an investigation of the justice of the damages demanded."

At the conclusion of his speech, which occupied two hours, Mr. Morgan asked a vote on the adoption of his resolution instructing the Foreign Affairs Committee to examine into and report on the liability of the United States to Great Britain for the seizures. The resolution was then read and adopted without a dissenting vote.

HOUSE.—A bill by Mr. Hopkins of Illinois was passed to amend the statute fixing the customs district of Chicago so that the district would embrace all of the State of Illinois and Indiana. Mr. Hopkins explained that the bill was in the interest of the smelters of Aurora, who desired to be able to pay duties on Canadian ores at the port of Chicago.

The oath of office was administered to Mr. Price of Louisiana (Dem.) and a resolution was passed for the appointment of Isaac Hill of Ohio as deputy sergeant-at-arms and three other employees agreed upon by the Democratic caucus.

The Speaker laid before the House the annual report of W. B. Franklin, the president of the board of managers of the National Home for Disabled Volunteer Soldiers for the fiscal year ended June 30, 1895. The board, the report says, has inspected the branches of the home and also the State homes. They have been found to be in very good condition.

The Speaker also laid before the House a letter from the Acting Secretary of the Treasury requesting an appropriation of \$10,000 for the United States' share of the expenses and salarles during the fiscal year 1897 for the International Water Boundary Commission between the United States' share of the expenses and salarles during the fiscal year 1897 for the International Water Boundary Commission between the United States' share of the expenses and saltional Wcolgrowers' Association on Saturday, calling for higher duties, was presented by Mr. Danforth of Ohio, but Mr. Crisp of Georgia objected to its reception. The work accomplished is only tentative, but so far as it ed it has confirmed the fore cast of challmansing out by the Associated Press last night. In addition to these places it is now practically decided that Senator Teller will become chairman of the Committee on Claims, Senator Hansbrough on Library, Senator Gaillinger on Pensions, and Senator Shoup on Patents. There has been an exchange of places by which Senator Cameron takes a membership place on Foreign Relations, and Senator Wolcott the place on Finance, which was conceded to Senator Cameron before he announced his intention not to stand for re-election to the Senate. Hayward passed a wild night. He is either rapidly becoming insane, or is feigning. He got up from his pallet and shouted to the death watch that Jesus Christ was in one corner of his cell and Satan in the other. He raved frightfully and declared he was afraid of neither. Then he began to throw imaginary intruders out of the cell. It was daylight before he quieted down. This morning he declared he would write a history of the past ten years of his life, telling everything without reservation. His cousin, Ernest Goodsell, would arrive today from Chicago, he said, to take charge of the publication. He would dictate the matter to some one tomorrow,

Bronstar von Schellendorf, the Minister of Finance, Dr. Miguel, and other ministers were present. At the opening of the proceedings the House adopted a proposal to stop the prosecutions of Herren Liebknecht, Stadthagen, Dueb, Perchel, Fischer and Heinrich Moeller. The Conservatives opposed the motion. The Minister for Foreign Affairs, Marshal von Biberstein, made a statement of President Cleveland's recent message to Congress. He denied that there was any differential treatment in Germany of American cattle and insurance companies, and urged the house not to be intimidated by reprisals. The Secretary of the Treasury stated that the federal states for the current year might reckon upon 30,000,000 marks over the estimates in direct revenue. He added, also, that he expected to show an increase of 31,000,000 marks compared with last year.

Generally speaking the surgeon finds that these climatic conditions are much more favorable than has been supposed. Neither the Venezuelan Consul nor the Minister at Washington know anything of the plans to overthrow their government. It is the greatest expedition of its kind that ever left this port, carrying as it does, enough arms and ammunition to equip an army. Gen. Monagues is an ex-President of Venezuela, and one of President Cresposbitterest enemies. He was one of the most popular Presidents the republic ever had, and, although he protested that he was getting too aged for the hardships of warfare, the promoters of the revolution insisted that he should lead the forces.

Although on its face bearing a resemblance to the Corinto incident, where the United States admitted the right of the British government to claim an indemnity for an insult offered to a British officer, it is believed that the same doctrine cannot be applied in the Uruan case, for an admission by Venezuela that the British officer was wrongfully arrested would amount to a confession that the place of seizure, far west of the Schomberg line, was British territory, and therein lies the whole of the present controversy between Great Britain and Venezuela, which the United States has been endeavoring to bring to a peaceful and just settlement by arbitration.

Ex-Premier Sagasta, the Alarquis di Vega, the Liberal and Republican Senators and Deputies and members of political parties, ecclesiastics and merchants, were present. The meeting today was the indirect outcome of an assault recently made upon the Marquis de Cabriana, son of Gen. Cabriana, a young Conservative nobletnan, famous as one of the best horsemen, swordsmen and cyclists in Spain. At 11 o'clock on Tuesday, November 18, two roughs fired several pistol shots at the young Marquis while the latter was passing through a street close to the Royal Museum of Paintings. This attack was due to the fact that the Marquis had made himself conspicuous recently by his courageous attacks upon the notorious abuses of the municipal administration of Madrid.

ROME, Dec. 9 .- (By Atlantic Cable.) Gen. Baritori, the commander of the Italian troops in Abyssinia, announcing what appears to be a serious disaster to the Italian forces operating against King Menelik. He cabled that the King's army, numbering about 20,000 men, surprised and surrounded yesterday five companies of Italian troops, under Maj. Toselli, at Ambalagi. Another body of Italian troops, under the command of Gen. Armondi, advanced to the support of Maj. Toselli, but they were stopped by the enemy. A severe battle was subsequently fought, and the result was not made known here.

of the Abyssinians were heavy, but no news was furnished concerning the fate of Maj. Toselli's command, and nothing was said about the losses of

the Italians.

Later in the day, in the Chamber of Deputies the government was questioned regarding the reported disaster which the Italian troops suffered in Abyssinia, and the matter led to warm attacks upon the government's policy in Africa.

People of a question as to the paragraph of the p

attacks upon the government's policy in Africa.

Replying to a question as to the particulars of the battle of Ambalagi, the Minister for War, Gen. Mocenni, read the dispatch from Gen. Baratiori, the substance of which is given above, and added that the Italian positions were secure. He admitted, however, that the incident was a serious one, although entirely reparable.

Signor Imbrisni, the Socialist leader, made a violent speech in opposition to the policy followed by the government, and other Socialists also denounced the African policy of the government.

Maj. Toselli's column was composed of 1200 native troops, commanded by twenty officers with forty non-commissioned officers and a mounted battery. It is now known that of this force Maj. Toselli, seventeen of the officers and 900 of the native-troops are missing. The position of Gen. Arlmondi at Makallo, however, is impregnable, and he has provisions for three months.

(BY TELEGRAPH TO THE TIMES, SAN FRANCISCO, Dec. 9.—(Special) Dispatch.) Lord Sholto Douglas talked from behind the footlights last night for the first time since he has taken up acting as a vocation. This second and grander debut was at least as suc-

and fully as laughable.
On account of the sudden illness of Hereward Hoyte, "An Honest Girl," could not be produced until toright, and "The Private Secretary" took its place on the bill, which was introduced with a laughable farce, "Little John L." But this did not interfere with Lord and Lady Douglas's part of the pro-gramme. They came on between two oaring comedies. The announcement brought out a large house. "Little John L." had just been concluded and everybody was in a good humor.

Lord Sholto appeared in his awkward way, dragging his little wife until the center of the stage was reached, and then, as if the command to "right about face" had been given, he wheeled sharply and faced the audience, with provider the stage of the sta rapidly-changing color in his hollow cheeks. Without waiting for the cheer ing to lessen, he stammered: "Ladles-and—gentiemen,—let—me — have — the —pleasure—of — introducing—to—you— my—wife,—Lady—Douglas."

There was no expression in what he said, and no inflection. The instant he finished his last word, he wheeled again and marched off with hurled step, swinging his arms to beat Pedestrian O'Leary in his palmiest days. Ink About a Supposed Surplus.

GEGULAR ASSOCIATED PRESS REPORT.)

NEW YORK, Dec. 9. — The Herald this morning says that the stockholders of the American Tobacco Company are very anxious for an explanation from the directors of what has become of the big surplus of more than \$5,000,000 and the apparently sudden contraction of earnings which led the management to pass the next quarterly dividend on the common stock, although the vague statement given out on Saturday distinctly stated that there would be a surplus of \$1,250,000, or nearly 7 percent., after paying the dividend on the preferred stock. A reporter called on Treasurer G. A. Rents, but he refused to be interviewed.

Rents is a member of the exchange, and he is reported to have said that the February dividend on the preferred stock of the American Tobacco Company would be paid, and many brokers advised their clients of the fact. But now that the management has announced, several weeks before the regular time, that no such dividend would be paid, the chief concern of the stockholders is to find out what is the matter with the company that so many stockholders should try to get out of it at once.

Although little of the proceedings could be learned for publication, it was learned that a resolution was adopted which will be presented to President Wilbur of the Lehigh Valley asking him to give the men who are still idle a fair hearing and to re-employ them. An effort was made to bring about the federation movement, but it was not successful. The engineers, it seems, are opposed to federation. The wages paid the Lehigh Valley men, which are much-below the standard, was touched upon but nothing definite done. Among those who addressed the meeting were George Everett, third vice-president of the Brotherhood of Engineers of Cleveland; C. A. Wilson of Peorla, E. W. Fitzpatrick of Galesburg, Ill.; F. W. Arnold of the Firemen of Peorla. The latter delivered a very spirited speech in the course of which he practically indorsed strikes.

The plan to escape with the use of dynamite, he said, was to make a hole in the wall of the jail, stuff it full of dynamics and bigw up the building.

Vosburg stated, the rumor says, that he thought it quite possible that if an investigation was made enough dynamite might be found in the walls to blow the building up. Col Fellows, is said, at once began an investigation, but when questioned, he refused to either confirm or deny the story.

It is alleged that the latter joined in the conspiracy, owing to the revocation of the gold-mine concessions granted by the Queen and because their salaries as advisers were reduced.

against the California Railroad Commissioners to restrain them from putting into effect the new reduced grain freight-rate came before Judge McKenna in the United States Circuit Court today. The Commissioners were represented by Attorney-General Fitzgerald, W. H. Anderson, the Assistant Attorney-General, Daly, and Robert Y. Hayne. Atterneys Harrin and Martin were there for the railroad. United States District Attorney Foote entered a bill of intervention on the ground that the government had an interest in the case on secount of the Central Pacific's indebtednes to it. Foote held that as the government held a mortgage for millions of dollars on the Central Pacific's indebtednes to it. Foote held that as the government held a mortgage for millions of dollars on the Central Pacific, which is included in the Southern Pacific system, it would be directly affected by the proposed reduction of rates. If the reduction were made the read held that it would be impossible for the Central Pacific to pay the government's claims. Foote offered, if the Railroad Commissioners would exempt the Central Pacific lines from the operations of the proposed reductions, to move for a dismissal of the bill of intervention, with the consent of the United States Attorney-General.

The District Attorney contended that

The District Attorney contended that ne California Railroad Commission the California Raijroad Commission had no right to regulate the rates ar all, as the Congress of the United States was the only power having such right. He took exception to any reduction whatever.

He took exception to any reduction whatever.

Attorney-General Fitzgerald replied, contending that the bill in intervention was incomplete as it did not set forth that a pound of grain was transmitted over the Central Pacific in California, or that the interest of the government in the road was either jeopardized or injured. Judge McKenna will decide the question of the right of the government to intervene tomorrow.

The couple are supposed to be in hiding in this city, they having been traced thus far in their flight by the girl's heartbroken parents. If the man is caught the citizens of Delano, where the girl lived, will probably seek to make good a threat to mete out summary punishment to him.

The young woman's name is Mattie J. Cole. She is the daughter of Samuel Cole. Her parents, who are in humble circumstances, stand high in the estimation of the citizens of Delano. She is but 17 years old and the news that she had been induced by a tramp to leave her home and friends caused a great amount of excitement in the little town. This feeling was accentuated by the report that the man was an exconvict and had a wife and children living in San Francisco. After dusk on November 22 the tramp took a horse and buggy from Delano and went after Miss Cole and her trunk. Then they took the midnight train for Stockton. The Sheriff from Delano tried to locate them in Stockton, but they had left.

She alleges the settlement was procured by fraud and misrepresentations made to her by Ferry and J. B. Metcaif, whom she makes a party to the suit, and who acted at that time as her attorney. She charges collusion between them by means of which she was led to believe the property was worth but \$150,000. The community estate lies in Oregon and Washington. She now claims one-half of the Washington property and one-third of the Oregon, being the wife's portion under the laws of each State. A similar suit was begun about two years ago in the Superior Court, but failed to obtain judgment.

Harson has not testified at this trial of Howell, and is not expected to do so. It has been stipulated by both sides that the evidence given by thin at the first trial shall be allowed introduction in this, as he cannot be found. His testimony, which the prosecution claims is perjured, is of great moment to Howell. It bears upon one of the vital incidents of the government's proof. It has already been charged on the witness-stand that M. D. Howell agreed to pay Harson \$100 for this evidence, and that \$500 was actually paid for it.

One of the strongest pieces of evidence against Howell is the proof that had been marked by Secret Service Agent Harris. The box was sent from this city to Stockton, where Howell received it from the agents of Wells, Fargo & Co. Shority after, witnesses have sworn, they received from Howell coins which were counterfeit, and marked with the peculiar brand of the Secret Service agent.

To combat this proof of guilt, Howell depends very largely, almost exclusively, upon C. D. Harson, who testified at the first trial that he saw Howell give the box of bogus coin to Matt Jones, and that it was Jones and not Howell who was involved in the complracy of counterfeiting. Since giving that testimony Harson has disappeared. The government now has in its possession the affidavit of a man who swears that Harson confessed to him that his testimony was false, and that Howell agreed to pay him \$1000 for it.

A Hallfax, N. S., dispatch says that
the steamer Manhassett, from Rotterdam for New York, arrived yesterday
afternoon in tow of the steamer Martellow, from New York for Hull. On
December 3, while laboring in a heavy
sea, the Manhasset was disabled by
her shaft breaking.

At Circinnati Louis Kramer was yes-

sea, the Mannasset was disabled by her shaft breaking.

At Cincinnati Louis Kramer was yesterday appointed the receiver of the A.

Burkhardt Company on a suit brought by Albert Elchenbecher, brother-in-law of Burkhardt. The liabilities were \$250,000; assets \$280,000. The firm was the largest in Cincinnati, and dealt in hats, cloaks and furs.

At Frankfort, Ky., Green B. Swango, Register of the Land Office, has been found short in his accounts. The Governor ordered an examination, which disclosed a shortage of \$1000. It is said that Deputy Register Grant has a check for the amount ready to pay into the treasury on the arrival of Swango at Frankfort.

A dispatch from Manchester, N. H.,

the hands of a receiver, also connected with several other financial institutions

At Coal Creek, Cclo., yesterday Willam Ray shot and killed his wife and then turned the gun on himself, sending a builet through his right temple. He died instantly, but his wife lived about an hour. They were very young and have not got on well since they were married. They had no children.

were married. They had no children.

In the Supreme Court of the United States yesterday the appeals of J. S. Albino Baca and Joe H. Fletcher, from the decisions of the Court of Private Land Claims, canceling the Borrego and Rita de Frijoles land grants in New Mexico, were dismissed because of the failure of the apellants to have their cases properly docketed.

At Cincinnati last night Emma

At Cincinnati last night Emmi Davis, the sixth victim of the fire in a West Sixth-street tenement, October 29, died, after having made an antemortem statement that she was the common-law wife of the late Thomas Hanna, a millionaire, whose estate owns the building that was burned. She claims that Hanna was the father of her child that was burned to death in the building.

in the building.

The Hearne murder trial began at Bowling Green, Mo., yesterday, Judge. R. L. Roy on the bench. After argument it was decided to try Dr. Hearne first and the work of empaneiling a jury began. It will be recollected that Mrs. Hearne was the wife of A. J. Stillwell at Hannibal, Mo., at the time of his murder and it is expected that some sensational testimony will be brought out during the trial.

A Didensiel C. dispatch anys that

brought out during the trial.

A Ridgefield, Ct., dispatch says that fire broke out in the big wooden block owned by G. S. Gage on Main street about midnight. In a few minutes the flames had consumed the block and attacked the building adjacent to the Town Hall, the telegraph office, Barnite & Alden's grocery store and a few residences. All these buildings were burned. The fire was brought under control at 3:30 yesterday morning. The loss will probably reach \$500,000.

A special to Chicago from Anderson,

loss will probably reach \$500,000.

A special to Chicago from Anderson, Ind., says that the announcement that the great Depauw Window Glass Company would put its plant into operation the first of the year has put the window-glass trust on edge, and the shutdown of all window-glass plants in the country, which was to have taken place January 1, to continue for an indefinite period, has been declared off. The plant is the largest in the United States. The new company refuses to go into the combine.

A St. Joseph. Mo., dispatch says that Patrick Crowe, who is wanted in several States for felonious crimes, and who is one of the most desperate men ever confined in the Buchanan-county jail, was sentenced to three years in the penitentiary yesterday. Crowe was under indictment for having robbed a Burdington passenger train near St. Jounder indictment for naving robbed a Burlington passenger train near St. Jo-seph and pleaded guilty to the charge. He withdrew his plea of guilty to the charge of jail-breaking and that case was nolle prosed.

was nolle prosed.

Atty.-Gen. Harmon yesterday sent to Congress a report upon the law features of the settlement with the Cherokee Indians. The Secretary of the Interior had decided that the United States is indebted to these Indians in the sum of \$1,11,284 paid for their removal to the Indian Territory, and improperly charged to the treaty fund. The Attorney-General takes the position that the expense incurred in the removal prior to 1838 was properly chargeable to this fund.

The protests made to the Postmaster-

The protests made to the Postmaster-General by the numerous bond-investment companies which have been barred from the mails have resulted in the reference to the Attorney-General of the question whether their sending advertising matter though both the ordinary and registered mails constituted a violation of the anti-lottery and postal laws. The Postoffice Department has been recently conducting an unusually vigorous prosecution against these and like concerns as frauds and lottery enterprises.

The end of the barbers' war in Chicago is further away than ever. Until the Supreme Court shall have passed upon the constitutionality of the Ceady law, the anti-closers propose to keep open house on Sunday, come what may. The officers of the Anti-closing Association claim that a very large number of the officers of the Anti-closing Associa-tion claim that a very large number of barber shops were open on Sunday. A great many shops undoubtedly were open, though closed doors were the rule in the down-town districts, and any man who needed a Sunday-morning shave did not have far to look for a ready razor.

Clerks in the Chicago postoffice are much wrought up over the order issued by Postmaster-General Wilson. They had arranged to give an entertainment at Central Music Hall on Saturday night and use the proceeds to send a committee to Washington to help get their revised salary classification bill before Congress. By the order of the Postmaster-General whoever goes on rostmaster-General whoever goes on such a commission is likely to lose his position. The orders of the Postmaster-General are so emphatic that the As-sociation of Postal Clerks is paralyzed and it is doubtful if the meeting will take place.

and it is doubtful if the meeting will take place.

In the Court of Common Pleas at New York yesterday Judge Bischoff granted a temporary injunction restraining the Origon committee of the Chicago Gas Companies and the Central Trust Company from proceeding with the so-called consolidation plan. The defendants are ordered to show cause at the special term of court on December 13, why the importion should not be made permonent. The plaintiff is William R. Whitney, the holder of a 100-share certificate of Chicago Gas stock. In Wall street the application is regarded as similar in character to the one recently denied by Judge Showalter at Chicago. Secretary Hoke Smith has returned to Washington from Georgia.

At Beatrice, Neb., the finding of the dead body of a woman about 25 years of age at the Grand Central Hotel, where she registered as Mrs. Carrie Brown of Keokuk, Iowa, in her room Sunday evening with a bullet hole in her right temple and one in her left breast, has led to suspicion of murder though the Coroner's verdict was suicide. On the night of her arrival she was accompanied by a tall stranger, who, after seeing her safely in a hack with her trunk, got inside and went to the same hotel, where he had a clerk register him as A. F. Turner of Koheeka, Mo. The following day Turner paid his bill and disappeared.

A fire in Rutherford, N. J., Sunday night, destroyed a dozen buildings. The fire was discovered in the postoffice building at Depot square and Park avanue. The postmaster and his family cocupied appartments in the upper story. They succeeded in getting out and giving an alarm. The Rutherford volunteer fire department turned out, but they were unable to cope with the fire. The flames spread to the adjoining buildings, where Arswalt & Prince's shoestore was destroyed, together with Meyers's drygcods store and Hatch's drug store. The loss will reach \$100,000. A German family consisting of a man, wife and one child are unaccounted for. It is feared they have perished, but it is possible they sought refuge In the Court of Common Pleas at New

that the meeting will be in the nature of a reunion.

An Interview that Was Bogus. An Interview that Was Bogus.
CHICAGO, Dec. 9.—The general manager of the Associated Press has received the following communication:
"To the General Manager of the Associated Press: Will you kindly state that the interview said to have taken place with me at St. Paul last week, referring to Mr. and Mrs. Cleveland, never occurred.

(Signed) "JOSEPH JEFFERSON."

The Cleveland Viaduet Horror. The Cleveland Viaduet Horror.
CLEVELAND (O.,) Dec. 9.—The Coroner rendered a verdict in the central viaduet disaster today. He fails to find sufficient evidence of an act committed or omitted 65 the part of any person to warrant the holding of any one as criminally liable for the disaster. He concludes that the seventeen victims came to their death as a result of injuries sustained, or from drowning in the river.

OMAHA (Neb.,) Dec. 9.—The trial of James Ish and wife, for the murder last winter of W. B. Chapple of Kansas City opened today. The State proceeds on the theory that both Ish and wife shot Chapple. Two empty revolvers were found near the corpse when the police arrived. Chapple had been intimate with Mrs. Ish, and was caught at the home by Ish. The Ishes are wealthy, and the affair was quite sensational.

(San Francisco Call:) Hoisting an American flag at a Toronto college started a fight among the students, and the Americans won. There may be a prophecy in the racket.

FOR SALE—WE SELL THE EARTH!

BASSETT & SMITH,

Formona.

Say, Bob Ingrib here that Robert's view, on some things don't coincide with the view of some other people we know of. For Instance, a man came into our office the other day and toid us that the mortgage on his place was going to be foreclosed the following Monday, and, pacing up and down the office, he remarked: "Gentlemen, this is hell!" or thereabouts. Now, under the circumstances, we believe that Bob I, was or is wrong, and the Pomona man right. The circumstances are these: About a year ago on the circumstances are these: About a year ago on the circumstances are these. About a year ago on the circumstances are these. About a year ago on the circumstances are these. About a year ago on the circumstances are these. About a year ago on the circumstances are these. About a year ago of house, S or 10 rooms, wide porch on 2 sides; most all set to orange in bearing; good house, S or 10 rooms, wide porch on 2 sides; near the noted Magnolia ave. He allowed \$12,000 for the place, assuming a mortgage and accrued interest. The mortgage became due and was not paid. Time has been granted the mortgagor minds himself at the end of his ridat, lariat, rope, or whichsomever you call it. Hence he is obliged to sell at once, and as he thinks there is no use monkeying with the bux-saw the large to 44500."

When you stop to think that there are 2000 boxes of oranges now on the trees, you will be able to see the biggest snap that Southern California ever snapped in this property. Come out and see it, anyway.

BASSETT & SMITH.

FOR SALE—WHAT WE ADVERTISE WE can prove true. The Alamitos tract has the finest view, most deligatful climate and productive soil of any portion of this State. Read and reflect. We offer land where the lemon, pomelo, loquat, clive and all deciduous fruits reach perfection; where strawberries, guavas and other small fruits are grown with profit in winter as well as summer; where freedom from dreary fogs, damaging frosts and blighting winds makes living a delight every day of the year. Land a rich sandy loam, free from adobe or alkall. Unsurpassed ocean and mountain view, graded streets, handsome residences; pure artesian water piped to land under pressure in iron pipes. Alamitos is 20 miles from Los Angelee, adjoin, with High School, stores of all kinds, ocean piers, 2 lines of railways, electric lights and cement sidewalks. We offer Alamitos land in tracts from 5 acres up for \$150 per acre—ty, cash, balance in 1, 2, 3 years. A share of water stock deeded with each acre of land. FOR SALE-HOUSES

We respectfully ask you to remember this. We build good houses economically. We can save money for you.

We lend money on the houses we build You can pay for a home bought of us and not feel it.

The source of wealth is not in what you earn, but it what you save.

Building and property will never be any We have several splendid homes of mod-erate cost now ready for occupancy; 2 in the Wolfskill tract; 2 on Boyle Heights and 1 in the southwest.

Even if you are looking simply for an investment these places will interest you. Will be glad to show you our plan of doing business. It is simple and honest. We have arranged with the Title insurance and Trust Co. to furnish a "Policy of Title Insurance" on each house we build, and sell. This policy is an absolute guarantee, by a thoroughly responsible corporation, as to our title to property sold.

BURGLARS AND BURGLARIES. wo Charges Against Marshall-At-

wood Held to Answer. Fred Marshall, the agile thief who owes his capture to the prompt action of Mrs. Thomas Rowan, Jr., will have to answer at least two burglary charges. One of the gold watches which he threw away last Saturday when pursued by the Traction Company's way like the same leaves were leaved to the same leaves and the same leaves were leaved to the same leaves. when pursued by the Traction Company's employees, was identified year-terday as the property of Mrs. J. R. Cox of No. 1019 South Hope street. The Cox residence is only about two blocks from the house occupied by Mr. and Mrs. Rowan. The bold burgiar must have entered Mr. Cox's house shortly before he made his last steal. The loss of Mrs. Cox's watch, which was lying on a table in one of the rooms, was not discovered before Sunday evening. Nothing else was missing. Some of the family were at home when Marshall was there, but he entered and left with his plunder unobserved by any of the inmates of the house. Two complaints for burgiary were filed against Marshall yesterday. He will probably be arraigned today in Justice Morrison's court.

court.

Thomas Atwood, who is now serving a twenty-days' sentence in the City Jail for carrying a concealed weapon, was held in \$3000 bail on the charge of burglary yesterday by Justice Owens. Atwood is the man who is alleged to have broken into a room in the Chicago lodging-house, where he siole a suit of clothes, a razor and various other articles.

CIRCULATION.

Sworn Weekly Statement of the Circulation of the Los Angeles Times.

Personally appeared before me, H. G. Otis, resident and general manager of the Times-irror Company, who, being duly sworn, decis and daily preseroom reports of the office we that the bons fide editions of the Times each day of the week ended December 7, were as follows:

day, December 1. STATE OF CALIFORNIA, COUNTY OF LOS

Total for the week. 113,520 Daily average for the week. 16,219 (Signed) H. G. OTIS. Subscribed and sworn to before me this 7th lay of December, 1885. (Seal)

J. C. OLIVER.

Totary Public in and for Los Angeles County,

State of California.

NOTE.—THE TIMES is a seven-day paper. The above aggregate, viz., 113.520 copies, is sued by us during the seven days of the pass week, would, if apportioned on the basis of a six-day evening paper, give a daily average circulation of each week-day of 18,920 copies.

THE TIMES is the only Los Angeles paper which has regularly published sworn statements of its circulation, both gross and net, weekly, monthly and yearly, during the pass several years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and this THE TIMES gives them correctly, from time to time.

We can save money for you. We sell on easy payments. We lend money on the houses we build. You can pay for a home bought of us and not feel it.

Paying rept is poor economy. The source of wealth is not in what you earn, but it what you save.

A monthly payment on a house is monthly investment. Building and property will never be any cheaper.

We have several splendid homes of mod-erate cost now ready for occupancy; 2 in the Wolfskill tract; 2 on Boyle Heights and 1 in the southwest. Even if you are looking simply for an nvestment these places will interest you. Will be glad to show you our plan doing business. It is simple and honest We have arranged with the Title Insu ance and Trust Co. to furnish a "Policy Title Insurance" on each house we built and sell. This policy is an absolute gua antee, by a thoroughly responsible corp-ration, as to our title to-property sold.

JOHNSON & KEENEY CO., 104 S. Broadway, Los Angeles.

Are building some beautiful homes, cottages and mansions. You will notice them in various parts of the city. They are not for sale, hence do not wait to see them finished, expecting to buy. We are building them to order, which we might as well be doing for you. It doesn't cost any more to have just what you want. We save you money and all trouble; furnish plans, lot and house, and will lend you money on it at 8 per cent. We accept monthly payments. In fact, we are the ploneer monthly-payment builders in this city; long experience.

If you own a lot and want a house built on it without any cash payment down, come and see us. JOHNSON & KEENEY CO., 104 S. Broadway.

BURGLARS AND BURGLARIES.

Two Charges Against Marshall-Atwood Held to Answer. Fred Marshall, the agile thief who

owes his capture to the prompt action of Mrs. Thomas Rowan, Jr., will have to answer at least two burglary charges. One of the gold watches which he threw away last Saturday which he threw away iast Saturday when pursued by the Traction Company's employees, was identified yesterday as the property of Mrs. J. R. Cox of No. 1019 South Hope street. The Cox residence is only about two blocks from the house occupied by Mr. and Mrs. Rowan. The hold burglar must have entered Mr. Cox's house shortly before he made his last steal. The loss of Mrs. Cox's watch, which was lying on a table in one of the rooms, was not discovered before Sunday evening. Nothing else was missing. Some of the family were at home when Marshall was there, but he entered and left with his plunder unobserved by any of the inmates of the house. Two complaints for burglary were filed against Marshall yesterday. He will probably be arraigned today in Justice Morrison's court.

BONDS AND REVENUE.

President Cleveland, in his latest annual message, laid great stress upon the specious plea that the conditions which he aptly described as "our pres ent financial predicament," were brought about in any remote degree by reason of an insufficiency of revenue to meet the expenses of government. The fallaciousness of this plea is indicated by the fact that the available cash balance in the treasury at the present time, including the gold reserve, is only about \$175,000,000, whereas the government has realized from its three issues of bonds about \$182,000,ernment received this \$182,000,000 of borrowed money, it would now be not only without a dollar in the treasury. but would be in debt for current expenses to the amount of \$6,500,000, or thereabout. This would be a more seri-"predicament," even, than that which Mr. Cleveland so plaintively be-

However much Mr. Cleveland and his fellow-partisans may strive to conceal or ignore the fact, it is a fact nevertheless, as plain as any fact can be, that the whole trouble had its origin in the inadequacy of the revenues for the needs of the government. The fiscal policy which produced this shortage of revenue created at the same time a feeling of general distrust which parabusiness and thus cerved still further to reduce the revenue. This distrust naturally led to the hoarding of gold, and to demands for liquidation on the part of the more timid holders of securities. Thus was created, by the natural processes of cause and effect, the demand for gold which placed the administration in its unfortunate "pre-

If the McKinley tariff had remained unchallenged operation, the revenues would not have fallen below the amount necessary to pay government expenses, and the trouble would have been averted. That law produced amnle revenue, in connection with the internal taxes, to carry on the government, until its operation was interfered with by the menace of free trade which cast its shadow over the land as a result of the Democratic victory of 1892. As a consequence, the revenues began to decline, even under the Mc Kinley law, because that law was known to be of uncertain tenure. The can measures. Let the record be kept decline was much more rapid after the passage of the present law. The prospect is that there will be heavy withdrawals of gold in Janubut it was bound to come. So is Anna ary and February, and the treasury is in no condition to withstand the drain. The exports of gold during the last tled down over the country since Cormonths aggregate \$55,796,000. They have amounted during the present calendar year to \$95,000,000, as compared to \$101,819,924 in 1894. The remaining days of this month will undoubtedly bring the amount up to last year's figures. Unless, therefore, some rompt and radical measure be enacted by Congress to meet the emergency which is hardly probable, another bond issue may be expected in January or

These reductions are made in conformity with a determination formed by the management long since, viz: proper that I should say that at the request of President Cleveland the Western Union Telegraph Company distributed the message all over the country entirely independent of the Associated Press or the United Press, and gratuitously and as a courtesy. As you have observed, the volume of your regular report was not disturbed in any way, and the message was an extra. AT THE PLAYHOUSES.

BURBANK THEATER, "Young Mrs Winthrop" is a play of tender senti-ment, pathos, delicious comedy, and strong human interest, and it contains some lessons that some people in every audience may well take to heart and profit by. It is a simple, homely tale of domestic unhappiness brought about by the gradual drifting apart of a pai of wedded lovers, who go on from day to day growing colder and more widely separated by the hollowness of that cruel and stupid thing called "soclety," until at last a final separation is being agreed upon, and the papers in the case are in preparation, but the tender-hearted old lawyer who officiates at the avay unt git ready to move away.' He left the house in great wrath, but in settlement proves a better man than ne is a legal counsellor and by consum mate finesse and tact reconciles the wife and husband with such art that the curtain falls with the two in each other's arms, "kissing again with is der matter mit you, John?' asked

tears."

It is a play that touches the emotion It is a play that touches the emotions because it is essentially human, and he must be a stoic, indeed, who can sit through it without the dew of tears upon the lashes. It is a dainty domestic drama, played upon the stage as thousands of such dramas are played under the roofs of homes the wide world over, and while there are no whirlwinds of passion in it, it is a strong creation, because it touches the heart and a good play because its tendency is to make men and women thoughtful, tender, kindly and true. The Frawley Company presented it at the Burbank Theater last night in. a thoroughly pleasing and attractive fashion. Not all the people in the cast were at their best, by any manner of means, but for all that it was so well done that it were almost idle to cavil at the few lapses from perfection that were evident.

was so well done that it were almost idle to cavil at the few lapses from perfection that were evident.

Belle Archer as the volatile and frivolous Mrs. Richard Chetwyn, was really a revelation. She carried off the part, one of the very best in the play, with such spirit, dash and distinction as to earn the audience's most generous commendation. She looked the very picture of the akry creature who weds one day and is divorced the next, with as little concern as though she were but buying a pair of gloves, and she delivered the chatter set out for her with such cleverness and aplomb as to be simply delightful. Lansing Rowan, statuesque as ever, was rather too much so and decidedly too cold to make her the ideal Mrs. Winthrop. Phosa McAllister was superb as Ruth Winthrop. She is a most conscientious, painstaking actress and, as pleasing as she has been in other roles; in nothing has she been seen to better advantage here the a in other roles; in nothing has she been seen to better advantage here than as the gentle and sweet mother in "Young Mrs. Winthrop." Charles W. King was capital as Buxton Scott, the lawyer, who lies with the purpose of outwitting the devil. Hone Rose as the blind city the devil. Hope Ross as the blind girl Edith was very acceptable, though the part is scarcely suited to her merry mood. Mr. Arbuckle made a most manly and engaging Douglas Winthrop, but much of the force of his acting was lost, because of his lines being spoken in an undertone. The construction of this these deeps in an undertone. The construction of this theater demands a constant raising of the voice or much of the dialoguis lost to the people back of the center of the additorium. Mr. Frawley's dry humor and unaffectedness made his Herbert a most pleasing impersonation. The needle-threading scene was excellently done, because it was simple and natural. As an entirety the play was a big success and deserves a succession of crowded houses. It will hold the boards until Thursday, giving way on Friday evening to "Capt. Swift."

ORPHEUM.—This week's bill at the Orpheum presents even greater attraction than the last one, for the Japanese acrobats and Russian equilibrist are alone well worth the price of admission. Some of the old favorites are still at the theater, notably Clifford and Huth, this time in capital imitations of darkey dialect, and the same society burlesque, which still brings down the house and elicits thunders of applause from the gallery. Topack and Steel are still more wearisome in their present phase of horse-play than they were in the last, and the Ammons Clerise Trio spoils some rather pretty musical specialties with silly grimacing and meaningless postures. Frank Moran still captures the house with his stump speeches on the issues of the day, and made some telling hits on the question of finance last evening. The new features are all exceptionally good. Audo and Omne, the Japanese jugglers and necromancers, show unusual skill and grace even for orientals, and "Little Allright," the tiny Jap who does such perilous feats with so much apparent case, is a worthy rival to his celebrated namesake, who was such a drawing card at the Centennial years ago. Sadi Alfarabi, the Russian equilibrist, is a marvel, and his balancing in mid-air with a lighted kerosene lamp on his head is of a character to cause a strong dash of anxiety to be mixed with the delight of the audience. The Bogard Brothers, with their huge trained and securely muzzled. The occasional snaris suggest unpleasant consequences in case anything should happen to go wrong, and the wrestling match is perilously like the real thing.

As one of the well-owners put it yesterday, what work the oil men are doing is actuated solely by a fear that they might get into worse mischief. If they were entirely idle, While this is true, the time which the oil men are killing is being partially rescued from vacuity by desultory repairs and the letting of contracts for the erection of tanks. Old wells are being deepened, pumps cleaned and things generally being put into such shape that, when a fair price is obtainable for the oil produced, the well-owner can sail right in and turn out the full capacity of his wells. Deaney dashed down a side street with Officer Matuszkiewiz in hot pursuit, while police whistles, cries of "Murder!" "Help!" "Stop, thief," "Catch him!" etc., were heard in all directions. As the officer saw the rascal escaping from him, he drew his revolver and began firing into the air. At every shot Deaney stopped and dodged, which enabled Matuszkiewiz to gain upon him.

After shooting five or six times, the officer overhauled the fugitive in Wilmington street and mounted his frame. Then a desperate struggle began. Deaney had the strength of a young glant, and but for the opportune arrival of Officer Tom Rico, who is somewhat of an athlete himself, Matuszkiewiz might have got a knockout. With the aid of citizens the two officers succeeded in getting the manacles on the desperado and sent him to the station.

The story of the affray is to the effect that Skungo, who is a desperate character, entered a saloon where Pete was drinking. He called to Pete and at the same time drew a revolver and fired four shots at such close range that Pete grabbed the weapon and turned the muzzle from him, else he would certainly have been killed. Skungo then drew a razor and slashed Pete across the throat and abdomen, causing wounds which it is thought may prove fatal. A Mexican youth was cut in the wrist while the fight was in progress. A Novel Idea.

(Harper's Round Table:) Paris is responsible for bringing out the very latest fad of the advertising flend, says an English newspaper. We have heard of the American who advertised his wares on the passing clouds at night-time, by means of reflecting written sentences extolling literally to the skies his particular brand of merchandise with a powerful magic lantern. We have heard, too, of the enterprising firm of patent-medicine venders who painted an advertisement of their wares on the rocks round Niagara, and of those who painted them upon the roadway. It is a development of this last method which has just come out. It is worked as follows: A tricycle is built with very broad tires, but these tires, instead of being smooth, are furnished with rubber type of large pattern, arranged so as to form sentences. On the top of the wheel is an ink reservoir, supplied with a roller-which inks the type, and at the bottom is a blower worked by the pedals, which is constantly blowing away the dust from the roadway in front of the wheel, so that it has a nice clean surface on which to impress its advertisement. Of course this novel tricycle can only print on wood or asphalt, but as most streets of Paris are so paved, there is plenty of scope for it, and the ink, being of a brilliant color and very permanent, leaves its mark quite readable for days.

"ON WAITING ORDERS."

THE NEW NATIONAL GUARD CHANGES WILL WORK.

cal Officers and Privates of the

The telegraphic columns of The Times Sunday announced the fact that Addt.-Gen. A. W. Barrett in "general orders No. 18" had made sweeping changes in the National Guard of California. Those portions of the order relating to the First Brigade, of which the headquarters are in Los Angeles. the headquarters are in Los Angeles

"First Brigade-The Seventh and Ninth Infantry regiments are consolidated into three battalions of infantry Ninth Infantry regiments are consolidated into three battalions of infantry of four companies each, as follows: First Battalion, Cos. A. B. C. and F. Seventh Infantry, to be known as Cos. A. B. C. and F. Seventh Infantry, to be known as Cos. A. B. C. and F. respectively, First Battalion; Second Battalion, Cos. D. and E. Seventh Infantry, to be known as Cos. B. E. I and K. respectively. Second Battalion; Third Battalion, Cos. F. C. and G. Ninth Infantry, to be known as Cos. L. M. and G. respectively, Third Battalion. Cos. A. and B. Ninth Irfantry, are hereby consolidated, and will be known as Co. B. Third Battalion.

"Lieut.-Col. John R. Berry, Ninth Infantry, and Maj. Samuel T. Black, Seventh Infantry, are hereby assigned to duty with the First Battalion; Lieut.-Col. J. L. Howland, Seventh Infantry, and Maj. F. T. Prescott, Ninth Infantry, and Maj. F. T. Prescott, Ninth Infantry, and Maj. Charles S. McKelvey, Ninth Infantry, and Col. J. W. Guthrie, Second Infantry; Col. J. W. Guthrie, Second Infantry; Col. E. B. Spileman, Ninth Infantry, and Col. William McDonald, Second Artillery, are hereby relieved from the command of their respective regiments and placed on waiting orders.

"Sec. 2. In companies where no consense and leave here in consense and colessions and the command of their respective regiments and placed on waiting orders.

Second Artillery, are hereby relieved from the command of their respective regiments and placed on waiting orders.

"Sec. 3. In companies where no consolidations have been made the present company officers remain intact. The officers of the new companies formed by consolidation are as follows:

"First Brigade—Third Battallon, Cos. A and B, to be known as Co. B, Third Battallon, captain, Richard V. Dodge: first lieutenant, Edward F. Brown; second lieutenant, J. C. Mielke."

This order from the adjutant-general's office at Sacramento has proved a veritable bursting shell in National Guard circles. No less than nine colonels are relieved of their commands summarily and placed on waiting orders. Not a wearer in the field of the eagle, but who has lost this valuable adjunct to his dignity and uniform. What the colonels are waiting for remains to be seen. They don't know. Line officers say it is re-election, but as the regiments have been reduced from nine to five in number, four of them must wait indefinitely.

The changes made by this last order are in line with the work progressive officers in the State Guard have been at for years. The last Legislature did a little pruning, reduced the number of brigades from five to three, and made a few consolidations in the line of the staff by doubling up on the duties to be performed, making one officer do what had previously been the work of two. Prior to that time the State Guard, with a force of some thirty-five hundred men, had something like one hundred general, field and staff officers.

Last week the board of location and organization got out its ax and went to work in good earnest, and made a very considerable trimming.

Southern California, instead of two regiments of seven companies each, will have one regiment of twelve companies. The Anaheim company being dropped out, and Co. A of San Diego, commanding the Seventh and Ninth Regiments, respectively, are relieved of their commands, and are "waiting."

What is puzzling the guardsmen now is, what is to he the result

ing the Seventh and Ninth Regiments, respectively, are relieved of their commands, and are "waiting."

What is puzzling the guardsmen now is, what is to be the result of the assignment of the field officers. Two lieutenant-colonels are more than even a twelve-company regiment requires. Lieut.-Col. Berry, together with Maj. Black will divide honors in assignment to the first battalion of the new regiment, while Lieut.-Col. Howland and Maj. Prescott will try to keep, house

Major McKelvey is alone in his glory with the Third Battallon. But there is Maj. Harpin; general order No. 16 does not even make a gentleman-in-waiting of him.

of him.

From what has been said by some who are known to have been near the board of location and organization, it is hinted that not only will a new colonel be elected, but an entire new field will also be elected to fit the requirements of the consolidated regiment. There has been much complaint in the

to the way affairs have been handled by both of the heads of the commands, and it is asserted that neither colonel would be sure of return were his relection in the hands of the officers of his own regiment, while for either to be made colonel of the new regiment would be an impossibility. A dark horse, it is said, will be brought out. A man of standing, both social and financial, together with the requisite military requirements, is said by the knowing ones to be ready to take the head of the new organization.

An officer of the National Guard said last evening: "That a change is necessary seems to be apparent to all. For it is doubtful if any organization in the State has been subject to the bickering and petty quarrels that have made the Seventh notorious during the past four years. The need of a good bedy of militia no one denies. To have it good there must be responsible men at the head of affairs. A city the size of Los Angeles should see its militia companies filled with the best young men of the city. As matters stand, the three local infantry companies are striving their best to keep their ranks to the minimum required by law. In many States it is esteemed an honor to belong to their militia organizations, and applicants have to wait months for an opportunity to enlist. Perhaps the reorganization will see such a state of affairs here. It is to be hoped fo."

The speaker had a warm word to say or the Cuban patriots, and urged the convention to adopt resolutions pelliloning Congress to at least recognize them as beligerents. In conclusion the speaker turned his attention to State constitutions of the nation and the constitutions of many States stood today as a monument to the pass greatness and grandness of the country. He said these constitutions were made for the purpose of protecting men and methods now dead, and were not suited for the changed industrial conditions and improved mental status of the present time. Hence, the common people, if they would better their condition, should turn their attention to the cutting away of these constitutional barriers which invalidate legislation enacted in the people's interest.

MILWAUKEE (Wis...) Dec. 9.—To be able to keep two women who had been married to him under one roof for weeks without either knowing the other had marital pretentions to him indicates a large degree of executive ability on the part of John G. Thompson, a carriage-maker here. He might have been thought to know enough to keep out of jall, but he did not. He was arrested for bigamy last night, and is still locked up.

In 1887 he was married at Newcastle, Wis., and he has three children by wife No. 1. During the last summer he met Miss Lillian Nevs, and on October 17 he was married to her. For some weeks he ran two establishments, but concluding it was too pensive, he brought wife No. 2 to his home, telling her they were going to board. He had already explained to wife No. 1 that the newcomer was to be a boarder. They lived happily in this way for a fortnight, when No. 1, suspecting that all was not right, searched the room of No. 2 while she was out and found the marriage certificate. The arrest was the result.

Retail druggists will not receive with Joy the news that hereafter the City Clerk is empowered to demand the payment of a wholesale liquor license by those members of the fraternity who dispense spirituous beverages in original or otherwise packages. There is no gainsaying the fact that many drug stores have done a big business in the sale of liquor, in the past, and it is but natural that the regular saloon men object to rivals who are able to sell better and cheaper goods solely because no license is demanded of the drug-

The hard-working Southern Califor-nia taxpayer smiles to himself as he reads of the recently-formed trust of the makers of tacks. He feels sure that there will be no tax delinquents in that outfit. And, what is more to the point, he earnestly hopes that the makers of tax in our local and national legislative halls will form no combina-tions or trusts with men who make tacks, sugar, or other household necessities unless they desire to tax the forbearance of a nation which already feels overtaxed, not only for tacks, but for other things as well.

The Board of Education finds itself in a serious predicament, with \$15,000 taken away, "at one swoop," from its appropriation for the year, and this after obligations have been assumed which it will not be possible to fulfill with the amount of money now avail-able for school department purposes. It is known that the Council is cramped by lack of funds, as witness the recent abortive attempt to reduce the salaries of certain police department employees. It is peculiarly unfortunate, though, that the public schools should suffer from any wish of the Council to save money, and while the action of the Council is technically proper, it will not seem just in the eyes of many who know the facts in the case.

The reminder of Councilman Dunkin to San Diegans, at a mass-meeting the other night, that instead of arresting penniless tramps and forming them into a chain-gang, they organize the gang from among the permanent residents of the Silver Gate, naturally arouses the ire of the Silver Gaters who have watched Dunkin's course in the City Council when voting on water propositions; and, in view of the general belief that boodlers exist in the Council, a belief caused largely ous criminal-for attempting this bare faced debauchery, it is suggested that the Council make public explanation of the matter; and if satisfactory explanation cannot be made, then let the chain-gang of San Diegans have its charter members taken from the ranks of these public officials, if they are worthy of their trust

Why Attorney Shinn Declined to Attend Court.

The case of Rubens vs. Pendleton was on trial yesterday in Justice Owens's court. This is the case in which Mrs. Rubens seeks to collect money of Assemblyman W. H. Pendleton, alleged to be due on a promissory note. Mrs. Rubens got judgment some time ago for the amount claimed, in Justice Young's court. Mr. Pendleton made a tender of the amount, less \$10, which he alleges he had paid on the note and had not received credit for. The tender was, therefore, rejected and suit brought for collection of the full amount for which judgment was given. Mr. Pendleton is conducting his own

case; Will D. Gould acts for the plaintiff.

The trial was not concluded yesterday, as plaintiff desired time to get the testimony of W. H. Shinn, Esq., A subpoena was served on Mr. Shinn at his office. He was busy and declined to obey the summons unless the statutory witness fee of \$1\$ was paid him in advance. The dollar was tendered him, and still Mr. Shinn declined to go to court unless he was paid 10 cents mileage. The dime was not forthcoming, so Mr. Shinn did not show up, and the court took a recess to enable plaintiff to produce the recalcitrant witness.

The amount involved in the suit is in the neighborhood of \$100.

The prograpme was very well rendered, Miss Foy playing with much taste and feeling, and reflecting much credit upon Mr. Hamilton. The seventh concerto, op. 76, De Beriot, was especially well done, and the Legende, op. 314. No. 7, by Carl Bohm, was rendered delightfully. She also played the Beethoven sonata in C minor, op. 30, No. 2, a Reverie, op. 22, by Vieuxtemps, and with Mr. Hamilton, a duo, andante con variazoni, op. 3, No. 2, by Spohr. Thomas Wilde rendered Miss Foy's accompaniments charmingly, and also gave a plano solo, March, op. 91, by Raff. Mrs. Kate Llewellyn, accompanied by Mrs. Larrabee, sang "The Holy City," and was heartily encored. The young debutante was the recipient of quantities of flowers, and several pretty gifts.

NEW IRRIGATION PLANT. Thirty Thousand Acres of Land in Antelope Valley.

The irrigation plant now under construction by the South Antelope Valley Irrigation Company near Palmdale is to supply water for irrigating 20,000 acres of land. It involves some unique irrigating features.

The water supply is to be taken from Little Rock Creek by means of a diverting dam and conducted thence to a large storage reservoir near Alpine. a distance of about eight miles. The diverting dam is 4000 feet above sea level and there is a greater fall than is needed to the reservoir.

is needed to the reservoir.

The ditch is being built ten feet wide at the bottom, six feet deep and fifteen feet wide at the top. It is intended to carry 10,000 miners' inches of water. Besides the ditch there are three or four miles of wood flumes and iye tunnels ranging in length from 100 to 600 feet. The dimensions of the flumes are about 5x7 feet, the lumber used being three inches thick.

rock about twenty feet above the ditch.

The first section of the work, including the diverting dam and most of the flumes and tunnels, is about one-half completed. There are 700 men employed on it and it is being done by the Cailfornia Construction Company of San Francisco. This section includes about seventy-five thousand yards of excavation and will require about three hundred thousand feet of lumber.

It is the intention to let the remainder of the work as one section and, as it does not include so much difficult construction, it is not expected it will take so long to finish it. It is announced to be the intention to press the construction as rapidly as may be so as to have the plant in operation in time to fill the reservoir from this winter's rains.

The report of the Sewer Committee was adopted with the exception of the recommendation that all bids received for the sewering of Main and other streets be rejected. This portion of the report was not concurred in by the Council, and upon motion J. H. Dockweller was awarded the contract for improving these streets. It will be remembered that some irregularity was alleged to have occurred in the receipt of Mr. Dockweller's bid, which was explained in The Times of last Friday. His bid being the lowest, however, and the charge of irregularities having been proved to be groundless, he was awarded the contract.

Hendricks in Boyle Heights for a branch jail, at a rental of \$15 a month for four months. The matter was referred to the Police Commission.

THE ANNEXATION QUESTION.

As was expected, the report of the City Attorney to the Council included an opinion from that official with regard to the point raised by the antiannexationists that an election will have to be held for each separate district sought to be annexed to the city. The City Attorney's opinion in the matter is rendered as follows:

"In the matter of the petition of W. G. Cochran and others, asking that an election be called for the purpose of submitting the question of annexing to the city certain territory therein described. The land sought to be annexed is described in said petition, and consists of two separate parcels or

to the annexation that these separate parcels of land cannot be annexed in one proceeding because they do not together constitute one territory within the meaning of the law, and that, should an election be held, one parcel might be forced into the city against the will of a majority of its inhabitants, by reason of a preponderance of votes in favor of annexation being cast in the other territory.

"I have examined a great many authorities on the subject of annexing territory to incorporated cities, but in most of the States the provisions of the statutes upon the subject are entirely different from our own, and in one case only that I have found has the question arisen. In the State of Washington the law on this subject is identical with our own, and in a case which went to the Supreme Court in that State, one of the objections made to the proposed annexation was that the territory consisted of two widely-separated tracts. The Supreme Court of that State held the proceedings void on other grounds, and did not pass upon this question, but, in referring to it, the court said that the objection raised to the effect that the territory consisted of two widely-separated tracts was an objection which would furnish matter for serious discussion had it been necessary to pass upon that point.

"In order that territory may be annexed it is necessary that a majority of the votes cast in such territory shall be in favor of annexation. In the event an election is had, and one of these separate tracts should vote in favor of and one against annexation, it would be a question for "serious discussion" as to whether or not the tract which had a majority of votes against the proposition could be then considered a part of the city. The best that could be said of such an annexation would be that there was a serious doubt as to the legality of the proceedings, and in every attempt the city and the proceedings and in every attempt the proceedings and in every attempt the proceedings are correct. I think the petitioners or one propos

recommendation of the City Attorney in this matter was adopted by the Council.

The City Attorney reported on other matters referred to him as follows:

"As instructed by you, I have prepared and herewith present an ordinance for the opening of an alley through the block bounded by Fifth, Sixth, Spring and Main streets." Adopted.

"You have referred to me the petition of Francisca Fewins, setting forth the fact that she is the owner of a lot taken for the opening of Darwin avenue, and that the allowance made her by the commissioners is not sufficient to pay the actual cost of moving her house and procuring a similar property upon which to place it. She asks the Council to allow her \$50 more, and proposes in that case to give up the property at once without a contest. Should she refuse to deed the property, it will oblige us to prosecute the condemnation suit, the cost in which will ultimately amount to more than the \$50. Under ordinary chroumstances I am of the opinion that it is better to fight these matters out on principle than to compromise; but in this case there are some reasons why the claim is a just one, and in view of the fact that the city will save money by allowing it. I would advise that the matter be referred to the Board of Public Works.

THE BOYLE HEIGHTS CEMETERY.
On opposite sides of the Council chamber yesterday morning the men who are interested in the now famous Catholic cemetery question, as it affects Boyle Heights, glowered at each other, and for nearly an hour poured into the ears of the Councilmen a stream of oratory anent the subject. Hon, Michael Collins spoke for the Catholic church, and related in detail the causes leading to the establishment of the cemetery, as it now exists in Boyle Heights. Mr. Collins informed the Councilmen that Saturday evening some miscreants had desecrated the one lone grave in the cemetery by lev-

the church and cemetery in Boyle Heights.

After an extended discussion of the different phases of the matter, the question was rereferred to the City Attorney, he having stated in the following report on the subject, that an unusual stress of work in his department had prevented his preparing such an ordinance as the Council had requested of him:

THE SUBJECT REHASHED. "You have referred to me the peti-tion of William C. Murray and others tion of William C. Murray and others with reference to the establishment of a cemetery in Boyle Heights. This petition, after setting up various facts with reference to the proposed cemetery, closes as follows: 'And we pray and demand of your honorable body that you take immediate legal steps to prohibit any more burials in said locality by said so-called "New Calvary Cemetery Association or corporation." "I have made a careful examination of the law relating to these matters, and am of the opinion that the city has a general power to regulate burials within its limits in any cemetery when the same has become prejudicial to health.

"Beyond any power that the city may have I find a State law which, it appears to me, applies to the cemetery referred to in the petition, and which will be sufficient, in my opinion, for the necessities arising in that case, so far as the city is concerned. The section reads as follows:

"You have also instructed me in connection with this matter to prepare and present an ordinance prohibiting the establishment of any cemeteries in the city and prohibiting burials in any cemetery in Boyle Heights excepting the Evergreen and Odd Fellows cemeteries. The Odd Fellows Cemetery is outside the city limits, as I am informed, and the law would not, in my opinion, permit us to discriminate against any cemetery or number of cemeteries fully established, unless it should be shown that the one discriminated against was, for some special reason, obnoxious, Belleving, however, that the section of the code above quoted is sufficient to meet your imme-

REBATES OF TAX MONEY. The Finance Committee reported

The Finance Committee reported as follows to the Council:

"In the matter of the application of O. M. Crane for a rebate of \$14.50 on account of taxes paid on erroneous assessment of \$1000 on improvements as shown by assessment No. 881 C., the City Assessor has reported to this committee that the statements contained in the petition are correct and that there was a clerical error of \$1000 in the assessment. The party has only paid the first half of his assessment, however. We therefore recommend that upon the petitioner's paying the entire amount of the taxes, and the filing of a proper demand drawn upon the tax fund of 1895-96, the sum of \$14.50 be returned to him.

"In the matter of petition from J. E. Baird, asking a return to him of the sum of \$2.10 on account of taxes paid on alleged improvements on lot 32. block C, of the Washington street tract for the year 1895-96, as shown by assessment No. 203 T, when no such improvements existed, the City Assessor having reported to this committee that the statements contained in said petition are correct, we recommend said petition be granted and upon the filing of a proper demand drawn upon the tax fund of 1895-96, the sum of \$2.10

Annual Report of the City Attorney

Filed With the Council.

After a recess of two hours, during thich time the Councilmen journeyed down to the Eighth Ward to inspect number of the crosswalks recently laid there, the afternoon session of the Council was called to order by the chairman. It had been rumored that the crosswalks already built were not laid according to specifications, and, while those examined by the Councilmen showed no serious defects, the contractor was notified that in every case the specifications must be strictly compiled

The following document was filed with the Council yesterday by the City

"To the Honorable Council of Los An-"To the Honorable Council of Los Angeles city—Gentlemen: In accordance with, the provisions of sec. 58 of the charter of the City of Los Angeles, I submit herewith my annual report for the year ending November 50, 1895, containing a brief statement in regard to each case disposed of during the year, and the condition of those cases still pending, in which the city is an interested party.

"Mary A. Mooney vs. Morford et al.: This action is one brought several years ago against the Street SuperIntendent and the City Council to recover damages for the removal of certain obstructions in Jefferson street. The case has

been partly tried, and we are making every endeavor to have the case finally disposed of.

been partly tried, and we are making every endeavor to have the case finally disposed of.

"Vernon Irrigation Company vs. City: Since my last report this case has been reversed by the Supreme Court and sent back for a new trial. The chief point decided on the appeal was as to the city's right to sell water outside of its limits.

"Capitol Milling Company vs. City: This action was brought to enjoin the city from diverting water from the zanja madre, so as to affect the flow of water at the Capitol Mills. The case has been decided since my last report, the court holding that the city could not enter upon the grounds of the milling company and divert the water because our right-of-way was conditioned upon their using the water, but that we might change our right-of-way and thus deprive them of water.

"City vs. State Loan and Trust Company: This action was brought to recover certain taxes claimed from this bank on the ground that it was doing the business of a savings and loan corporation. The case was decided against the city but on appeal to the Supreme Court the city won. The taxes have been paid and the city has recovered and collected its costs.

"City vs. 'Pomeroy and Hooker: An action to condemn certain land for a system of headworks. This case will be at issue by the 16th of this month and ready to be set for trial at the next term of the court, beginning January 6.

"D. F. Donegan vs. City: This action was brought several years ago to recover damages alleged to have been caused by breach of contract for cuting down First-street hill. The case has been at issue for years and will probably never be tried.

"W. J. Hayes & Son vs. City: This action was brought to recover a forfeit of \$3000 held by the city. During the past year upon instructions from the Council the case has been compromised by the city paying back \$2500 of the money held as forfeit for failure to purchase certain bonds which were held to be irregularly issued.

"City vs. Pomeroy & Hooker: This action was brought to enjoin the defendants from interfering with a ditch which the city claims to own through their land. The case has been recently tried and submitted and will be decided very soon.

"Tahney vs. City: An action for

their land. The case has been recently tried and submitted and will be decided very soon.

"Tahney vs. City: An action for damages alleged to have been caused by storm water. The case has been dismissed during the past year.

"People vs. Jesurum: This action was brought to forfeit the franchise of the street rallway on Fifth street because the rallway would not pave the street between the tracks. It is now pending on appeal in the Supreme Court, but the matter bids fair to be settled by the company paving the portion of the street in question.

"Alfred Moore, Jr., vs. City: This action was breught to quiet title to a large tract of land on Mission road. The case has been tried and judgment rendered in favor of the city to all of the land in question except a small piece about 100 by 125 feet in size.

"City vs. Hutchinson and his bondsmen:

the land in question except a small plece about 100 by 125 feet in size.

"City vs. Hutchinson and his bondsmen: In this action the city recovered judgment and the full amount of the judgment, interest and costs, amounting to \$3088.33, has, been collected and paid into the city treasury.

"Hellman vs. Shoulters: This action was brought to test the street-bond act and was decided in favor of the city in the Superior Court. It is now pending on appeal in the Supreme Court.

"Crystal Springs Land and Water Company vs. City: Is an action brought in the United States Circuit Court to determine the rights of the plaintiff to certain waters claimed by the city to be a part of the Los Angeles River. The case is now pending or demurrer.

"City vs. Alics Deball, et al.: This

les River. The case is now pending on demurrer.

"City vs. Alice Dehall, et al.: This case was brought to condemn certain land on First street for the purpose of widening said street. The case was tried before a jury and the damages fixed at \$4000, which sum has been paid and the street has been widened.

"City of Los Angeles vs. Brodtbeck et al.: This suit was instituted to determine the lines of west Sixth street. The city recently had judgment fixing the lines of the street as claimed by it.

"Hostetter vs. City et al.; This action was brought to recover certain land

"Hose for the street as Claimed by it."

"Hose tetter vs. City et al.; This action was brought to recover certain land along the river, was decided in favor of the defendants and since my last report has been decided in the Supreme Court against the plaintiff.

"J. N. Griffith Company vs. City: This suit was brought to recover \$10.562 alleged to be due under the contracts of Mansfield & Grant, for work done on the outfell sewer. The case will probably be tried within the next sixty days. "Fire Extinguisher and Manufacturing Company vs. City: This suit was brought to recover \$5240, claimed to be due for three chemical engines. It was a dispute as to whom we should pay the money to. The case was dismissed and the city recovered its costs.

"Frick Bros. vs. City: This suit was brought against the city to recover

"Frick Bros. vs. City: This suit was brought against the city to recover something over \$8000, on account of the failure of the city to enter into a contract with plaintiffs for a section of the outfall sewer. The case has been decided in favor of the city.
"Decredles we beginned the city.

"Reynolds vs. Howard, Street Super "Reynolds vs. Howard, Street Super-intendent: This suit was brought to compel the Street Superintendent to enter into a contract with Reynolds instead of with certain property-owners who had elected to do the work. The case was won by the city. "Huber et al. vs. City: This action was brought to test the validity of cer-tain proceedings for the widening of

was brought to test the validity of certain proceedings for the widening of Broadway and was decided adversely to the city. Other proceedings were then instituted and are now under way.

"Pierre Larronde et al. vs. City et al.; This suit is brought in regard to certain property on Negro Alley. The city is only a formal party to the action.

"Bridget Flaherty vs. City: This suit was brought to determine the title to a strip of land in Third street which was claimed by Miss Flaherty. The case has been tried and won by the city.

"Shepherd vs. City: This is a suit re "Shepherd vs. City: This is a sult re-cently brought to recover \$50,000 dam-ages alleged to have been suffered by reason of the First-street cut. The case is at issue and will be tried on the 20th of this month.

AT THE COURTHOUSE.

J. Marion Brooks Falls Into Con-

tempt of Court. A lively scene was enacted yesterday in Judge York's court during the hearing of a citation to show cause why M. N. De Fussi should not pay allmony to his wife Maria, pending the action

for divorce.

Both the contending parties were in court, J. Marion Brooks appearing as attorney for the plaintiff, and Johnston Jones, Esq., for the defendant. Four small children were also very much in

small children were also very much in evidence, and executed an amount of stirring around entirely at variance with the stately decorum of Department Three, and which kept Deputy Sheriff Jenkins in the unenviable state of the proverblal hen on a hot griddle. De Fussi himself, a wiry, grimacing little Frenchman, was put on the stand, and Mr. Brooks proceeded to have fun with him. He badgered the wretched little Gaul until an ominous gleam came into the usually placid eye of the court, and at last capped the climax by tenderly inquiring after De Fussi's health.

"I'm sick today," answered the

"I'm sick today," answered the Frenchman.
"Sick are you?" responded the attorney, pleasantly. "Well, I propose to make you a good deal sicker before you leave this court."
"Mr. Brooks, you are fined \$10 for contempt of court in making an improper remark to a witness," interposed His Honor, sternly.

Attorney Brooks looked a trifle put out, but bowed to the judicial mandate. He decided that there was no hurry about complying, however, and serenely waved the matter aside as he turned again to the witness and asked the next question.

again to the witness and asked the next question.

"Mr. Brooks," remarked the court, calmly, "You will not be allowed to try any case here while you are in contempt of court. If you wish to continue your examination of the witness, you must first clear yourself of contempt by paying your fine."

J. Marion squirmed a little, but smiled a sickly smile and murmured something about paying his fine later on.

on.
"Mr. Clerk," said Judge York, "you will please make out a commitment."
Mr. Francisco dived into a drawer of his desk after the commitment, but before he could put pen to paper the valiant Col. Brooks surrendered unconditionally, and paid over his \$10 like a little man.

ditionally, and paid over his \$10 like a little man.

He then proceeded to finish his questioning and for the next half-hour there was one lawyer skipping about on the brink of a volcano. The little Frenchman chattered and grimaced, and the attorney picked his way around the outskirts of contempt, skating so near the edge once or twice that Capt. Jenkins took his eagle eye off the gyrating young ones long enough to scowl at the audacious lawyer as he hammered sharply for order.

young ones long enough to scowl at the audacious lawyer as he hammered sharply for order.

At last Col. Brooks put nearly the same question as before. Gen. Jones promptly objected, and Judge York looked up sternly.

"That isn't contempt, your honor. I didn't mean it so at all," stammered the attorney hastily, while a suppressed snicker ran around the courtroom and two dimples appeared very prominently in the judicial cheeks as the court assiduously caressed its moustache for a few moments.

J. Marion protested again about paying the fine, after the close of the case, but Judge York lived fully up to his reputation of never remitting a fine for contempt, and J. Marion Brooks, Esq., is minus just one fat yellow eagle.

Refractory Newsboys newsboys, aged 14 and 12, respectively,

newsboys, aged 14 and 12, respectively, were taken before Judge Shaw yesterday for commitment to Whittier. The complainants were the parents of the boys, and the chief trouble seemed to be that they preferred to sleep in the basement of the Times building rather than go home at night.

As no wrong action could be proven, Judge Shaw discharged the small culprits, Joe was mild and harmless enough, but Jimmy scowled feroclously and made a little incarnate insurrection of himself to the extent that he had to be taken in charge by the Sheriff for spreading himself out on the pavement and kicking, instead of going obediently home with his sorrowing parents.

An Assignee Brings Suit. An Assignce Brings Suit.

Henry B. Schildwachter, the assignee of A. P. Nelson, was yesterday suing John Nelson and W. L. Kestner to recover certain property alleged to have been fraudulently conveyed just prior to the insolvency proceedings. The case was on trial before Judge Clark. Schildwachter alleges that Nelson made over this property to his brother to keep it out of the hands of his creditors. John Nelson asserts that he took it in payment for services rendered on A. P. Nelson's farm, being iguorant of his brother's insolvency.

Wants a Partial Release

Alexander Penny, one of El Ham-mond's bondsmen, whose liability on the bond is \$1000, went before the Board the bond is \$1000, went before the Board of Supervisors yesterday to ask that he be allowed to pay \$500 down, and so release two lots from the judgment llen. The remainder of the judgment would be paid afterward. The matter was referred to the District Attorney, who will give an opinion upon it today.

Johns on Trial.

The trial of J. T. E. Johns, accused of committing incest with his little daugh-ter Leona, is now in progress in Judge Smith's court. Meyers Loses His Wife. Judge Smith yesterday granted Mrs. Belle Meyers a divorce from Ellsworth Meyers, who is now serving a term in the penitentiary for robbing the Azusa Bank.

THE SUPREME COURT. Fifty Dollars Damages for a Friv-

An opinion which came down from the Supreme Court yesterday was an object lesson to the litigants who ap-peal from the judgment of the Superior Court upon insufficient grounds. Elmer E. Rowell appealed from the judgment against him and in favor of Joseph Muller, the only point made for a reversal being that the lower court did not file findings, which were not waived. The court, however, adopted the facts stipulated by the parties as the facts in the case, basing the judgment upon this agreed statement, and, as it is only when the facts are in issue that findings by the court are necessary, no more formal finding was required.

"We recommend that a half-day school be opened at San Pedro-street school, and that Minnie Walker be assigned to the room.

"Also that a one-half-day school be opened at Macy-street school, and that Miss Ida E. Carrick be assigned to the room; also that there be established a head of the science department in the High School, and that George L. Leslie be assigned to the position of head of the science department, to commence December 9, 1396." This report was adopted, and the assignments ordered made.

The Committee on Rules and Regulations reported as follows:

"We recommend that rule No. 105, page 224, of Rules and Regulations, be amended to read as follows: Teachers shall not award prizes or give any presents to any pupil, or pupils, neither shall teachers receive any presents of any kind from their pupils. Contributions for any purpose shall not be permitted in any school, except contributions for a flag, and for such other purposes as shall meet with the sanction and approval of the Superintendent of Schools and the Committee on Rules and Regulations." The report was adopted by the board.

The following resolution, which is self-explanatory, was adopted by the board and a copy ordered sent to the City Council:

board, and a copy ordered sent to the City Council:

"Whereas, the secretary of this board has been notified by the City Treasurer that the \$15,000 carried by the City as a loan to the school department has been drawn, thereby reducing the amount of the school fund that much; and, whereas, at the time the estimate was made for the amount necessary to run the schools for the ensuing year, the amount asked for was \$118,000, and at the same time the City Auditor considered, and states that inasmuch as this \$15,000 was an outlawed claim, that the school department could make no estimate to cover the amount, and thereby reduced the estimate to \$103,000, which was further reduced by the City Council to the sum of \$\$5,000, making a total reduction of \$33,000, and, whereas, the cost to the school department for the year 1895-96 for paying the kindergarten and High School salaries will amount to \$55,000, and when the \$15,000 above mentioned is added it will make a total of \$70,000 leaving the small balance of \$15,000 to cover all the expenses; and, further, that the school department so considering the judgment of the Auditor to be correct, and with the impression left us by the members of the Council that this money would not be demanded of us, we have contracted bills for a large amount of the small sum-left for all purposes; therefore, be it "Resolved, that we protest against the

A Balky Elevator and a Modest Maiden.

The passenger elevator in the Wilson Block at First and Spring streets got halky yesterday afternoon and left the half dozen people who were descend-ing-from the upper floors in a very awk-ward predicament. Two modest young sing from the upper hoors in a very awar, ward predicament. Two modest young ladies were especially embarrassed.

The steam gave out just before the first floor was reached, and the result was that the elevator boy could not stop the cage in its downward course, to it went right down into the basement. After waiting about five minutes for power to be turned on, the passengers grew tired of being cooped up and began to look for some means of exit. The only way out was through the Palace saloon, and by this route it was necessary to crawl through a hole and jump off a ledge about four feet high. The men did not mind this, and one of the ladies readily acquiesced, but the other exclaimed:

"O, dear, is there no way out of here except through that horrid saloon? What will the people think of me if they sae me coming out of a beer joint!"

"You can stay in the elevator all night if you like madam." said one

of the horrid men, "but the rest of us are going to escape by the only available route."

"Well, then, I'll so with you," said the embarrassed malden, "but please don't tell anybody that you saw me coming out of the Palace."

With that she gathered up her skirts, jumped down out of the cage and beat a hasty retreat to the street, blushing like a tulip at the thought that somebody might see her emerge from a place where beer is kept-on tap.

Struck by an Engine.

A Southern Pacific track laborer was struck by an engine on a bridge about half a mile from the city limits yesterday evening and killed. The body was found at about 7.30 o'clock, and, by order of the coroner, was sent to Kregelo & Bresee's morgue, where an inquest will be held today. The victim was a young man named John Smith.

THE ELECTRIC ROAD.

PASADENA COUNCIL GETS AFTER THE COMPANY.

porate Disregard for the Safety of the Public Reveals that the Company Has no Franchise on Columbia Street-Laprovement

At the regular meeting of the City Council this afternoon the first subject brought forward for the consideration of the trustees was that of the extension on Columbia street, over which the sion on Columbia street, over which the electric road has built its tracks, without having, as specifically stated in a certain "resolution of intention," secured a franchise. Attention has frequently been directed to this dangerous bit of street, and the fact that the city would be held coully responsible with would be held equally responsible wit the railroad company in case of an ac-cident there has made the trustees anxcident there has made the trustees anxious that the public should be insured against such contingencies. Judge Weed expressed the ideas of the Council thus July 29. The board notified the electric road that it must immediately take steps for the public safety, but nothing was done.

steps for the public safety, but nothing was done.

It is now said that, to insure the safety of the public, Mr. Raymond is willing to bear a share of expense of having a part of the road, bridged over the tracks of the Santa Fe road and Terminal, which are nearly parallel at the southern end of Fair Oaks avenue. Bridges existed at one time, at that point, and by what authority they were removed is not quite plain, but it is thought that after their removal the City Council gave the order to the roads to replace them. Such action would greatly lessen the danger at the turn of the road between Fair Oaks and the extension. In order that the company might fully comprehend the meaning of the word "immediately," Judge Weed this afternoon introduced a resolution, of the road between Fair Oaks and the extension. In order that the company might fully-comprehend the meaning of the word "immediately," Judge Weed this afternoon introduced a resolution, which was passed by a full vote, that the City Attorney proceed without further delay against the company, and enforce the order of July 29. The resolution recites the facts that the track at that point is unauthorized by the terms of the franchise, and is considered by the trustees a nuisance and a menace to life and property, and an obstruction to the street which must be immediately removed. The company's delay in paving Colorado street, was also the subject of discussion, and the Street Superintendent was instructed to inform the company that its part of the street work must be done at once. Considerable dissatisfaction was expressed by some of the trustees concerning the delay in every matter in which the electric road is an interested party, and the people at large are inclined to believe that a company receiving such valuable concessions from this city should show more consideration for the public.

The affidavits of the posting of the notices on the Euclid avenue work were read and declared sufficient, and as a number of residents on that street were present they were asked to express their views. Dr. Slaughter spoke in support of the protest against the sewer, and three women residents on the street also vigorously protested against the proposed work. The Trustees were moved by their appeal, and the sewer work was indefinitely postponed. The curbing, guttering and grading of the street will proceed.

Mayor Cox called the attention of the Trustees to the alley between Fair Oaks avenue and Raymond avenue, just north of Colorado street. He said that it was in a filthy condition and something should be done at once toward remedying it, and suggested that several loads of dry dirt be placed in the suggestion that the hobos be made to break rock enough to floor the alleyway was not received with favor.

BUSINESS.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES, Los Angeles, Dec. 9, 1895.
RAISING THE GOLD RESERVE.
The instructions issued by the Secretary of the Treasury to the sub-treas urers that the government would pay express charges on all gold that might be sent to the treasury and also on the currency sent back for the same, seem to have helped Mr. Carlisle in building up the gold reserve. Reports show that a number of banks in different parts of the country sent forward gold in various amounts, and if a sufficient quantity could be relied on it might perhaps be a better, or at least a cheaper, plan to build up the reserve than to issue bonds on which interest has to be paid.

THE BANK OF ENGLAND.

THE BANK OF ENGLAND. The number and volume of the transactions of the Bank of England make almost everything connected with that institution a matter of public interest. A late issue of the Social Economist contains some interesting information regarding it. It says:

"The Bank of England is not only the banker of the government, but it is also the bankers' bank. All other banks keep their bullion reserves at the Bank of England, and this is one fact that gives the establishment its special importance as the center of England's monetary system. This reserve is seldom allowed to fall below £10,000,000. The number of persons receiving dividends is nearly 284,000. Nearly £25,000,000 (\$124,000,000) are annually paid out by the bank as dividends on stock annuities reaching the enormous sum of £765,000,000, or, say, \$3,873,000,000. During the year 1892 the stock of the bank sold as high as £344 per share, and as low as £325. The highest dividends ever paid was in 1697, 27% per cent., and the lowest during the years 1753-63, 4½ per cent. For twenty years the dividend has averaged about 10 per cent. The bank started with a capital, as stated, of £1,200,000. In two years this was increased to £2,201,000. In 1710 it was again increased to £5,560,000. On June 29, 1816, it was increased to its present sum of £14,553,000, equal to about \$72,700,000. No reports of the bank are made beyond the regular weekly statement."

FRUIT FROM MEXICO. The California Fruit-Grower publishes a state-ment which originally appeared in the Mexican Financier, and which shows that the people of Mexico are not oblivious to the advantages to be gained

that the people of Mexico are not oblivious to the advantages to be gained by having a market for their fruits in the United States. The statement is as follows:

"It is gratifying to note the growing attention that is being given by American fruit dealers to this country as a future source of supply. The orange-growing districts of Mexico are being visited at present by buyers for the American market, a fact which ought to encourage Mexican growers to extend the area of their plantations and improve their stock to the highest point. If the fruit business between this country and the United States is once well started, it is bound to grow, for Mexico is better situated for supplying the American market than many of the countries which now monopolize it."

There are many reasons why a trade with Mexico in such articles as the United States does not produce should be encouraged, and if Mexico can supply the people of this country with fruit at a time when it is not being produced here they should buy it in Mexico in preference to going to the Mediterranean for it.

Arriage What was a second control of the property of the residence of her residence of the strong exception to may have found its way out here.

THE HUGE PAPER TRUST. Speaking of the paper combine which there is talk of forming for the purpose of controlling the paper output and paper to the United States, the St. Louis Greer says: "The value of the trust plants is actually less than \$10.00.000, but they are to be capitalized at \$35,000.000. This will be another cordage scheme to loot the people. It will levy an oppressive tax on the entire printing business. It will add to the cost of paper for newspapers alone over \$21,000 dally. This tax will put on tax of \$6,500.000 annually on the newspapers press of the country, and this extra tax must be borne by the readers of newspapers. Whether or not the newspapers of the country will submit to this cutrage when they realize that the tax amounts to more than 'be manufacturing capacity of the trust mills, is a question for future decision. There is very little doubt that Congress will remain inactive, and through that in activity the government will become a party to the illegal transaction of fostering a great trust."

Those, whoever they be, who are planning this combine, are evidently clipping their coupons before the dividends have been earned. The newspapers of the United States have it in their power to defeat any such scheme in twenty-four hours if it should become necessary to do so, and if the promoters of this little nursery combine vainly imagine that the newspapers are going to stand idly by and see the printers and publishers of this country robbed of \$25,000.000 the aforesaid promoters are making the greatest mistake of their lives. Their scheme may look very beautiful on paper but they will find on attempting to carry it into execution that it will not "pan out."

PUBLIC LANDS. Bradstreet's prints a synopsis of the report of the Secretary of the Interior on public lands during the last fiscal year. It says:

"Public lands aggregating 3,406,849.04" acres were disposed of during the last

fiscal year, according to the report of the Secretary of the Interior. There were cash sales of 416,878.38 acres, miscellaneous entries to the amount of 7,947,421.89 acres, and 42,548.86 acres of Indian lands were disposed of. The area of public lands undisposed of at the close of the fiscal year amounted to 529,083,495 acres. This aggregate does not include Ohio, Indiana and Illinois, in which a few isolated tracts may remain. It is also exclusive of Alaska, containing approximately 270,000,000 acres, and military and Indian reservations, reservoir sites and timber reserves, which may in the future be added to the public domain. The total cash receipts during the year for public lands disposed of amounted to over \$2,000,000. The Secretary suggests the advisability of patenting the arid lands to the State after it is fully determined that the selection made by them under the Carey act are arid lands. He calls attention to the fact that the reservoir sites selected by the Geological Survey remain without proper action providing for their use, while the water they were expected to store is being diverted to less practicable and economical sites. Under the subject of forests the Secretary calls attention to the fact that 17,000,000 acres are now included within forest reserves, the objects being to thus preserve the forests for future use, and through their preservation to control the supply of water so that it may be stored and utilized for irrigation. The Secretary suggests legislation to increase the force employed in protecting the forests."

These figures show that there are still open for purchase or settlement in the United States nearly 970,000,000 acres of public lands, including Alaska

THE RUSSIAN THISTLE. The statement is made that there are 43,000 square miles in North Dakota and Nebraska covered with the Russian thistle. If this estimate is correct the government of the United States should lose no time in dealing with the pest. It will continue spreading, and, if not checked and eradicated, will cost the country millions of dollars.

NEW INCORPORATIONS. The California State Medical and Surgical Institute yesterday filed its articles of incorporation for the purpose of maintaining a medical school and hospital, of manufacturing special remedies and surgical instruments, and of carrying on all sorts of business pertaining to the purpose of the organization. The directors are: C. N. Hopkins, Henry Palmer, W. L. Hess, P. Jauss and C. C. Bowen. The capital stock is \$250,000, divided into 2500 shares. The entire amount is actually subscribed.

GENERAL EASTERN MARKETS. (REGULAR ASSOCIATED PRESS REPORT.)

CHICAGO, Dec. 2.—Wheat started its career for the day at a decline of 1/60% per bushel. The local operators, big and little, had the market all to themselves in the first hour and a half of the forenon and appeared to think that if the visible supply should show 2,000,000 bushels increase for the week, as they fully expected it would, the market would not be able to stand up against such a reveiation. The price took a spurt up after the visible was shown to have decreased 117,000 bushels. The decrease in the visible supply was by far the most important of the day's announcements, but it by no means constituted the whole of the reasons for the big advance, of which the visible statement was the starting signal. The opering price for May was at from 61% 6861% and the first half, and another hour during which it dragged between the bottom and top prices of the above quotations. About 11/45 o'clock the sensational surprise of the day occurred when the 117,000 bushels decrease in the visible was announced, and it took only about twenty minutes' trading after that to advance the price to 62%. The first decrease in the visible say year was on December 28, (REGULAR ASSOCIATED PRESS REPORT.) about twenty minutes' trading after that to advance the price to 62%. The first decrease in the visible last year was on December 29, after the total had reached 89,071,000 bushels. This season's first decrease starts from 63, 901,000 bushels, or 26,000,000 smaller than that of a year ago. The price continued edging upward until it reached 63% and it closed starts from 63, being an advance for the day of 1%c. The 1% per bushel advance to the sheet on the 1% of t

ENTER NOT BOHEMIA

It is a Country of Which Girls Should Not Become Citizens.

It is a Country of Which Girls Should

Not Become Citizens.

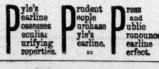

"The Girl Who is Employed" is affectionately addressed and wisely counseled by Ruth Ashmore in December Ladies' Home Journal. The writer tells the girls of their duty to their employers and to themselves, discusses matters of dress and warns them against the dangerous land," which she designates "Bohemia," which seems to you so attractive. In reality it is a country of which you should not become a citizen. No matter whether your friends call you a prude or not, do hot permit the social side of your life to degenerate into a free and easy condition where no respect is shown to you as a woman. In Bohemia there may be some laughter, but be sure there are many tears. In that land you would probably spend all your wages in one day of festivity, and be a beggar, or, worse still, a borrower for the rest of the week. In that land a woman buys one fine frock, too fine for her position in life, and during the working hours she looks untidy and always suggestive, by her shabby finery, of a gay girl rather than a well-bred woman, which is what the busy girl should aim to be. In Bohemia it is claimed there is a jolly good-fellowship, and nothing else, between men and women. You don't want to be a Jolly good fellow You want to be a woman who is respected, not only because of her sex, but because of herself, and the free and easy life in which a man offers a woman a cigarette, and she volunteers to get for him something that he counts more cheerful than a cup of tea, is one which my busy girl does not want to live. If for no other reason, this would be one. In Itahan't cup of tea, is one which my busy girl does not want to live. If for no other reason, this would be one. In Bohemia all women must be young and beautiful, and you are not going to be that forever. So make for yourself a social world that will be enjoyable; that will be pleasant, but where you will be liked when youth and beauty have gone, because of the good that is in you, mentally and spiritually."

JACKOB SMITH'S PLETHORA OF MARRIAGE LICENSES.

Tried to Get a Rebate on One, but Was Disappointed-Christian Church Basaar Begun-Dog Pols

SAN BERNARDINO, Dec. 9.—(Regular Correspondence.) Jackob Smith of Redlands appeared at the marriage license desk in the clerk's office Saturday, and applied for a license to wed Mary Hanson, also of Redlands. This recurring the license and morning he returned the license and wanted his money back. This was not because he had changed his matri-monial intentions, but because he had one more license on his hands than he It all came about in this way: Smith procured his license in this county, and went to Riverside to have the knot tied. When he presented have the knot tied. When he presented himself to the officer who was to officiate he was informed that a license from any other county, and particularly from San Bernardino was not recognized there, and he must apply to the local cupid for a license. Smith did so, and this morning sought to return his left-over license and get his \$2 back, but was disappointed in the attempt.

Discovery of Homestead Land-The Const Road.

SANTA BARBARA, Dec. 8.-(Reguar Correspondence.) A surveyor from the East, who has been making Santa the East, who has been making Santa Barbara his home for the past few months, states that he has found in the immediate vicinity of Santa Barbara, a large area of land which is subject to homestead entry. The tract discovered is supposed to contain 11,000 acres; is well timbered and watered, and every forty acres out of a hundred are level with a deep soil of good fertility. The land in question is well up in the Santa Ynez range and is near to a good wagon road. In this section there is little frost, possessing a fine climate the entire year, making it a good location for the raising of olives, berries and all deciduous fruits. The land is located at a distance of not more than from fifteen to eighteen miles of Santa from fifteen to eighteen miles of Santa

SANTA ANA, Dec. 9.—(Regular Cor-respondence.) The hobos' temporary rest is at an end. Another large ship-ment of rock from San Bernardino has arrived and a part of the chain-gang was put to work today unloading the cars and hauling the rock to the jail-Tomorrow (Tuesday) yard. Tomorrow (Tuesday) morning the hammers will again be yielded and out of rock macadam will be made for the streets and county highways. There are about eighteen or twenty

in the chain-gang now and but additions are being made. The fact that Santa Ana and Orange county work seems to have spread among the fraternity (?) and the horde of doless fellows have thinned out very rapidly the past week or ten days. Almost all of those who do get picked

up, come from outside localities, where the news of the rock pile had evidently not reached them.

SOME BAD BOYS. For the past number of months the officers of Santa Ana have been convinced that a number of petty thefts were traceable to the doors of some boys in this city, whose parents stand well and are well-known throughout the city and county, but they were in hope that the recklessness of the young men could be checked and themselves as well as their parents saved from the disgrace of an exposure. But the young men, for such they are, have not seemed to heed the advice of parents or officers, and the indications now are that a wholesale exposition will be made in a few days.

The officers propose that the depredations shall stop, and they are at work now ferreting out just who the guilty parties are, when, in all probability, they will be given the full extent of the For the past number of months the

ANTELOPE ALMONDS. The Valley a Congenial Home for

This Fruit.

This Fruit.

(Antelope Valley Gazette:) Antelope Valley almonds are again demonstrated to be superior to all others. At the Atlanta Exposition Nicholas Cochems's almonds took first premium in competition with the whole world. This is a neat recognition again, and bespeaks much for this great section. There are now over 2000 acres planted to almonds, and when these trees come to bearing this valley will be the greatest almond center in America. There is no question of the superority of the almonds raised here, nor is there any question of the profitableness of the crop when they are grown in the thermal belt along the foothills. The acreage of good almond land over the United States is very small indeed. California is the only State that produces them, and only a few spots in this State are good. We predict that good almond land will yet be worth as much as orange land. The judges at the Atlanta Exposition knew what they were about when they gave the premium for the best almonds to Antelope Valley. Wise men they and righteous judges.

REDLANDS, Dec. 9.—(Regular Correspondence.) W. A. Woods was arrested Sunday morning by Constable Rivera, and this morning pleaded guilty to the charge of petty larceny before Judge Camp. The circumstances connected with Woods's arrest were a little out of the usual rut. W. T. Leedham and his partners, making up the Rediands Sprinkling Company, were troubled because of a grain depository, which, apparently, could not show up as much barley in the morning as was left in it at night. A watch was set at an early Sunday morning, long before the time for people to begin preparing for Sunday-school, and the little piece of detective work worked well. When Woods began filling his sack with barley he was surprised to have two or three men pounce on him from ambush, and he fain would have settled the bill then and there. But all his pleading was of no avail, and he was placed in the custody of a constable as above indicated. His sentence has not yet been pronounced. REDLANDS, Dec. 9.—(Regular Cor-espondence.) W. A. RIVERSIDE, Dec. 9.—(Regular Correspondence.) A. S. White, who has had charge of the Riverside Banking Company by order of the State Board of Bank Commissioners for some time, turned over the effects of the bank to the directors for the purpose of liquidation today and the property is back in the same old hands.

Word has been received that the Perris Bank has closed its doors. The cause of the closing was the fallure of Joseph Eastman to pay his note for \$5170, due today, and the fact that Eastman, as mentioned elsewhere, had transferred all his land holdings at Val Verde. Mr. Patterson, the bank's cashler, says that the bank would have to hold over \$18,000 of bad debts before the depositors could lose anything, and that it does not hold that amount of non-collectable assets. Cahuenga Valley Water.

An important meeting will be held this evening at the Pass schoolhouse at which will be considered the proposition of the West Los Angeles Water Company to supply the Cahuenga Valley with water for irrigation purposes. This company has already developed over 600 inches of water in the San Fernando Valley, which will be piped to the head of the Cahuenga Valley at Ivanhoe, from which point water mains will be run both south and west. The Cahuenga Valley has never had such an excellent opportunity to obtain an abundant supply of water. It is expected there will be a huge attendance at the meeting.

HE WAS NOT DRUNK.

Ex-Chief of Police Cuddy Only Dis-Disturbed the Peace. In the case of the People vs. T. J. Cuddy, ex-Chief of Police, Justice Morrison yesterday rendered a decision finding the defendant guilty of disturbing the peace but not guilty of being drunk.

ing the peace but not guilty of being drunk.

Mr. Cuddy was arrested by Police Officer Blackburn, who alleged that he was drunk and obstructing the side-walk at First and Main streets. Mr. Cuddy resented the charge and expressed his opinion of the officer on the way to the Police Station in language that was more emphatic than polite. This constituted a disturbance of the peace, the court opined, and he was accordingly found guilty on that charge. The fact that Chief of Police Glass released Mr. Cuddy on his own recognizance immediately after reaching the station was evidence enough, in the opinion of the court, to warrant the assumption that Mr. Cuddy was not drunk. Had he been very much under the influence of liquor, the Chief would not have allowed him to leave the station before he had become sober. Therefore the court acquitted him on this count. Sentence for disturbing the peace has not yet been pronounced.
